**A MESSAGE TO  
THE INDIANA HIGH SCHOOL ATHLETIC ASSOCIATION**

By

**Orvis "Shorty" Burdsall, President Board of Control**

The IHSAA, a voluntary and democratic organization, was founded for the purpose of directing the athletic programs of the secondary schools of Indiana toward the highest level of ideals attainable.

The legislative body of this association is the twenty-five member Athletic Council elected by member school principals. This Council elects five of its members annually to the Board of Control who with the Commissioner and Assistant Commissioners function as the administrative division of the Association.

The Council constantly studies the Constitution and By-Laws to consider changes which would provide fair competition for all concerned. Suggestions and proposals are solicited from member school principals. It should be the responsibility of every principal, athletic director, coach and athlete to support and abide by these rules. The efforts of all members should be directed toward athletic programs which challenge students to achieve their maximum potential in the use of their minds and bodies.

In conducting each and all of our sports programs, it is very essential that fundamental rules and principles be established and followed, just as in life, if we are to continue our democratic society.

Many decisions must be made by the Board and the Commissioners. Such decisions will not please everyone, but these dedicated individuals will render decisions in the best interest of the majority and within the framework of the Constitution and By-Laws.

The IHSAA has always been fortunate to have the highest type of leadership in its office. We were very sorry to learn of the retirement of Mr. Herman Keller, Assistant Commissioner, who devoted many years of his life toward making the IHSAA program one we can honor and point to with pride.

We are proud to have Mr. Eskew, Mr. Brown, Miss Roy and Mr. Maas in our office for the coming year and we are indeed fortunate to have dedicated administrators in our state who give of their time and talent to serve on the Board, Council and asunder committees. Only through the cooperation of school people, students and parents will we be assured of the continued success of our high school athletic program.

President Calvin Coolidge has said, "No man was ever honored for what he received; honor has been the reward for what he gave."

To all who have given so much, I wish to say "Thank You".

# CONSTITUTION OF INDIANA HIGH SCHOOL ATHLETIC ASSOCIATION

## Preamble

The principals of the secondary schools of Indiana recognizing the need for a voluntary association of schools to plan, organize and regulate a wholesome, amateur program of interschool athletic competition in which school members of such association would participate, hereby consent and agree to establish the following as the Constitution of the Indiana High School Athletic Association.

## Article 1 — Name

The name of this association shall be the "Indiana High School Athletic Association." (The abbreviation of this name is understood to be "IHSAA.")

## Article II — Purpose

The purpose of this Association shall be to encourage, regulate and give direction to wholesome amateur interschool athletic competition between the schools who are members of the Association. All such interschool athletic competition coming under regulation by this Association shall be subservient to and complementary to the academic or curricular functions of the member schools which are their primary purposes. To assure that the program of interschool athletic competition remains steadfast to the principles of wholesome amateur athletics and subservient to its primary academic or curricular functions of education of the member schools, the Association shall cooperate with agencies vitally concerned with the health and educational welfare of secondary school students; furnish protection against exploitation of member schools or their students; determine qualifications of individual contestants, coaches and officials; and provide written communications to establish standards for eligibility, competition and sportsmanship.

## Article III — Membership

### Section 1.

All Memberships Are Voluntary. Any secondary school in the state may become a member of this Association by meeting the requirements, by subscribing to these rules and regulations, and by paying the annual dues of one dollar and fifty cents (\$1.50) to the Commissioner on or before September 15 of each year. Memberships expire on September 15 of each year unless the annual dues are paid.

## Section 2.

Full membership in this Association shall be open to all public, private, parochial, and institutional high schools of the state offering and maintaining three or four years of high school work, provided they meet the requirements of the association and also subscribe to its rules and regulations. A school to be eligible for membership in the IHSAA must be accredited by the State Department of Public Instruction.

## Section 3.

Preparatory membership may be extended to any school accredited by the State Department of Public Instruction offering and maintaining school work on the ninth and tenth or tenth grade level with the understanding that such preparatory membership shall extend the privilege of participating in single athletic games, contests, tournaments and meets with other preparatory members. Teams from preparatory members composed of ninth and/or tenth grade students may compete against teams composed of ninth and/or tenth grade students from full members and junior members composed of ninth grade students in single games, contests, tournaments and meets without special restrictions as to the number of teams entered, trial runs, or geographical location within the state.

Such schools are not eligible to enter teams in state tournaments or meets. It must be clearly understood that a preparatory membership is a membership in the Association that requires the principal to subscribe to all of the rules and regulations of the Association. It is further understood preparatory membership is available only to schools that will become eligible for full membership within a two year period. At the end of the two year period the preparatory membership will be reviewed by the Board.

They may receive tickets for the state final championship basketball tourney and other state final meets at the discretion of the Board.

Students may participate on the following bases:

- a. A student must meet the eligibility rules of the Association in all respects.
- b. Students in the ninth and/or tenth grade in a school having preparatory membership may compete against only ninth and/or tenth grade students from other member schools.
- c. Schools having preparatory memberships in the Association may not use students below the ninth grade on their high school athletic teams in interscholastic games.
- d. Schools having preparatory memberships may not compete with schools who do not hold membership in the Association, if such schools are eligible for membership.
- e. The principal in a school holding membership is responsible to the Association for the conduct of athletics in that school.

Note: Schools holding preparatory memberships are subject to all rules and regulations of the Association with the modifications given above.

## Section 4.

Junior membership may be extended to any school accredited by the State Department of Public Instruction offering the ninth grade, but not eligible for full, preparatory or associate membership. Junior membership shall extend the privilege of participating in single athletic games, contests, tournaments and meets with other junior members. Junior membership also shall permit teams from junior members composed of ninth grade students to compete against teams composed of ninth and/or tenth grade students from full, preparatory and associate members in single games, contests, tournaments and meets without special restrictions as to the number of teams entered, trial runs or geographical location within the state. Schools holding junior memberships are not eligible to enter teams in state tournaments or meets. It must be clearly understood that a junior membership is a membership in the Association that requires the principal to subscribe to all of the rules and regulations of the Association. Junior members may share in the distribution of tickets to the state final championship basketball tourney and other state final championship meets on a limited basis as determined by the Board.

## Section 5.

Associate membership may be extended to any high school accredited by the State Department of Public Instruction and operating as a boarding school, with the understanding that:

- a. Associate membership shall extend the privilege of participating in single athletic games and contests and invitational tournaments and meets, but not in any tournaments or meets conducted for the purpose of determining an official state championship in the Association.
- b. Associate members are bound by all rules and regulations of the Association with the exception that a student who changes schools without a corresponding change of residence on the part of his parents is eligible as to residence immediately, provided there is no undue influence involved in any way.
- c. Associate members are not privileged to share in the distribution of tickets to championship tournaments and meets or in the distribution of surplus funds to member schools.

## Section 6.

Each member school shall have one vote.

## Section 7.

The Board shall be judge on all memberships.

### Section 3. Athletic Council

- a. The twenty-five district-class units shall at all times be entitled to representation in the Council.
- b. All elective terms of Council members shall be for five years, beginning on July 1 following election, or for the remainder of an unexpired term in case of a vacancy.
- c. Candidate eligibility shall be limited to (1) any administrator or full time teacher from a member school in good standing or (2) any superintendent who has no more than one member high school under his supervision.

To qualify as a nominee (1) such person shall be from the class of school from which the selection is to be made in

that particular year, (2) each name must be submitted on an official nominating petition requested in writing from the Commissioner. This must be signed by five member school principals in his Association district, at least two of whom shall be in his class of school, (3) each must file completed petition with the Commissioner no later than November 15 prior to the election.

The Commissioner shall send printed ballots listing all such names to all principals of member schools in good standing in that district, who constitute the electorate. The person receiving the highest number of votes shall be declared duly elected by the Board, who shall constitute the canvassing board. In case of a tie for the winner, the vote shall be taken again, printed ballots listing only the names of those tied to be sent out by the Commissioner with a return date designated by the Board.

- d. Removal from an Association district, withdrawal from the teaching profession, resignation, suspension of his school, or a lapse in membership of his school in the Association shall constitute a vacancy to be filled in the manner hereinafter provided. A person elected to represent a certain class member school, who changes to a school of a different class or whose school changes from class to class due to a decrease or increase in enrollment, shall continue to serve out his term as long as he remains in his original district.
- e. Vacancies in the Council may be filled by the Council, the appointees to serve until the successors chosen at the next annual election take office. Such persons must be from the same district and class member school as the member originally chosen.

Such action on the part of any employee or school official may cause his school to be suspended from the IHSAA for a period of time to be determined by the Board.

Any evidence that a representative of Organized Baseball is attempting to or has signed a student prior to graduation should be reported to the IHSAA at once. This is a violation of the Agreement between the National Federation and Organized Baseball, and the penalty for such action is under the jurisdiction of Organized Baseball.

### Section 4.

Schools belonging to athletic conferences, or participating in tournaments and meets under the rules of the IHSA, except in the championship series conducted by the IHSA, may make awards to the winning school or winning participants, provided such awards are made within the bounds of Sections 1, 2 and 3.

### Section 6.

Note: An accredited institution is one that grants credits that count toward a Baccalaureate Degree.

### Section 7.

Enrollment eligibility shall be limited to eight semesters with the understanding that a student who enrolls in the ninth grade for the

first time at the beginning of semester two may choose either his first or ninth semester for enrollment eligibility. A mid-year student who participates in any sport during his first semester becomes ineligible for all sports during his ninth semester.

A. No, enrollment rather than participation is the determining factor in such cases.

Q.3 Which is the determining factor in eligibility—enrollment or participation?

A. Either one may cause ineligibility. Both are factors and must be considered.

Q.4 If a student changes high schools, when is he eligible?

A. Attendance for any length of time or enrollment that may be considered attendance for any length of time (See exceptions under Sections 10 and 12 above)

Q.6 When are students, who finish the work given in one member school, eligible in another school?

Students who complete the ninth grade in a junior high school in a school corporation that also maintains a senior high school are not considered eligible if they enroll in a high school outside their regular high school district.

Q.7 Does the fifteen (15) day enrollment requirement mean school or calendar days?

A. School days.

Q.8 If a student fails in all subjects for a semester does this count as one of his eight semesters of eligibility?

A. Yes.

Q.9 Is a student, who has been out of high school for a semester or more and who has played independent ball during that time eligible when he enters school at the beginning of a semester?

A. Yes, unless he violated his amateur standing in some way by playing on the independent team and provided he is eligible in all other ways.

Q.10 Are all students, who attend school outside the school district in which their parents live, required to present legal transfers or pay the regular tuition?

A. Check this matter with the Fiscal Officer of the State Department of Public Instruction. The report on aggregate attendance calls for definite information about transfers and tuition cases.

Q.11 If a student misses school for a few weeks in order to work is he eligible during this time and when he returns?

A. This is a school problem and must be answered by the consideration whether regular school work to the extent of twenty hours is being maintained or not. Usually students who miss school are not passing in their school work.

Q.12 When is a student, who intends to enter high school, eligible?

A. When he actually enrolls, provided all other requirements have been met. See question 15 below.

Q.13 How long may a student be enrolled in a semester then drop out without the semester being counted under the Scholarship Rule?

A. Within the first fifteen (15) school days of the semester.

Q.14 If a student is passing in four regular high school subjects when he drops out during a semester, may he be considered eligible under the Scholarship Rule at the beginning of his succeeding semester of enrollment?

- Q.5 Is an intramural contest interpreted by the Association as a practice or a game?
- A. A practice.
- Q.6 When may a student (athlete or non-athlete) participate in an intramural sport without affecting his eligibility?
- A. 1. Only during that sport season for basketball and football.  
2. At any time during the school year for other sports.
- Q.7 Are the same standards of eligibility required for intramural games as for interschool games?
- A. No, the Association has no eligibility requirements for intramural.
- Q.8 Is a game between the alumni and the high school students considered an intramural game or an interschool game?
- A. Interschool game.
- Q.9 May students participate in interschool contests after their school is closed?
- A. Due to the great variation of time in which member schools close in the spring, (a) students may represent their schools in meets and tourneys sponsored by the Association; (b) they may participate in scheduled contests where one of the two schools is still in session; (c) they may participate in a contest where both schools are closed, provided it was a regularly scheduled contest; (d) graduating seniors may participate in contests according to the above conditions, even though they may have received their diplomas, and (e) provided their team is competing in conference contests.
- Q.10 May a student play on any team other than a member school team?
- A. A student becomes ineligible in his school for the season of that sport in which he participates as a member

of any team other than his school team. There is an additional penalty for participation out of season as set out in the rules regarding football and basketball.

- Q.11 What is considered participation in a sport for a season?
- A. Playing in a part of one game or contest in a sport constitutes participation in that sport for that season. (See exception under Rule 12—Section 10)
- Q.12 May member schools play against College, Y.M.C.A. and independent teams?
- A. Yes, in single games, but not in tourneys, meets and leagues. In single games the member schools must obey all of the rules of the Association and there can be no high school students on the opposing teams.
- Q.13 May a student who plays on an independent team be permitted to participate in intramural athletics?
- A. Yes, Association rules and regulations govern interschool athletics only.
- Q.14 Does a student become ineligible in all sports if he plays on a team other than his school team in one sport?
- A. No, a student becomes ineligible only in the sport in which he participates as a member of a team other than his school team unless he violates his amateur standing or some general rule of the association. Playing basketball out of season makes a student ineligible for basketball through the date of the State Final Tourney of the following year. Playing football out of season makes the student ineligible for football through the date of the State Play-off finals of the following year.
- Q.15 If students participate in a league or tournament of a sport not sponsored by IHSAA, do they make themselves ineligible in other sports?
- A. No, providing they do not violate their amateur standing.

## RULE 17 — PENALTIES

### Section 1.

Penalties imposed by the Association upon players, member schools or officials for violations will be determined by the Commissioner or the Board or both. The type and duration will be determined in accordance with the nature and extent of the offense.

### Section 2.

#### FORFEITURES

- When an ineligible student participates in team contests, the game must be forfeited.
- When an ineligible student participates in contests where individual points are awarded, only the points scored by the ineligible student are forfeited.

- c. When an ineligible student participates in an Association tournament series contest, he must be disqualified immediately when discovered.
- d. Championship honors will be forfeited for withholding known requested data during investigations.

### Section 3.

The Board may issue a warning, probation or suspension of membership to any member school for any reason it deems necessary in order to enforce its decisions or the Constitution and By-Laws: Provided, that in case of a penalty of suspension of membership, the Board shall hold a hearing at which the affected member school or schools may be heard.

A WARNING is an official notice that an unexcusable, unethical or unsportsmanlike action has occurred, is a matter of record, and such an occurrence must not be repeated.

PROBATION is a more severe type of warning. The school may continue its regular schedule and participate in tournaments only after filing a written report with the Commissioner listing measures to be taken to alleviate the problem.

SUSPENSION is termination of (1) membership or (2) participation in certain sports for a specified length of time due to any of, but not limited to, the following reasons:

- a. Violations of the Constitution or By-Laws.
- b. Failure of the principal to assume direct responsibility for the school's interschool athletic program.
- c. Refusal to abide by the decisions of the Commissioner or Board.
- d. Violation of the Undue Influence Rule.
- e. Violation of contracts with other schools.
- f. Violation of game officials contracts.
- g. Using an ineligible player knowingly.
- h. Failure to provide adequate police protection.
- i. Removing team from field or floor because of dissatisfaction with the officiating.
- j. Failure to control the spectators and players' bench.
- k. Failure to adequately protect officials and visiting team.
- l. Violation of practice and playing seasons.
- m. Mutual agreements to violate the rules of this Association.

Note: Being on probation or previous warnings are not a prerequisite. All game and officials' contracts shall be null and void. Following the termination of suspension, the principal must make a written request for reinstatement.

\* \* \* \*

Q.1 This question is often asked: "What will be the penalty for violation of such and such a rule?"

- A. Penalties in the Association are not assigned in advance, as this democratic organization is built on the idea that the observance of its rules and regulations is more to be desired than the enforcement of them. The Association believes that the essence of proper and willing observance is higher than enforcement and that we should resort to enforcement only when observance fails.

## RULE 18 — PROTESTS

### Section 1.

When a contestant, official, game or decision is protested, the game shall be played as scheduled and the protest, with evidence, then filed with the Commissioner who will determine the action to be taken pursuant to guidelines set forth by the Board.

### Section 2.

In cases of disputes or protests involving a student, the Principal of the school involved must furnish the Board the following data on the contestant in question: number of years of participation; date and place of birth; average mark in each subject for the preceding semester; average mark in each subject from the beginning of the current semester; etc. Other pertinent information will be requested as needed.

### Section 3.

In cases of disputes involving other school personnel, contracts, etc. the Principal must submit all known details in writing to the Commissioner who will determine the action to be taken.

### Section 4.

If, after receiving such protests, it is determined that information has purposely been withheld until an "advantageous" time, the Board may, at its discretion, deny the protest.

## RULE 19 — SCHOLARSHIP

### Section 1.

To be eligible scholastically students (1) must have received passing semester grades, at the end of their last semester in school, in at least four solid subjects requiring a minimum total of twenty hours of regular high school recitations per week or equivalent and (2) must be making passing grades in at least four solid subjects totaling twenty or more regular high school recitations per week or the equivalent.

### Interpretation

- 1. The amount of credit given for any subject shall be as determined by the State Department of Public Instruction.

2. Semester subjects for which two credits are earned toward graduation shall be considered as two of the four required subjects.
3. Students attending state approved vocational schools may transfer such grades and credits earned to their home school for the purpose of establishing eligibility.
4. A maximum of four subjects having a combined total value of two credits may be considered as two of the required four subjects.
5. A subject for which credit has previously been granted may not, if repeated, be counted to satisfy this rule.
6. Transfer students and students entering grade 9 must meet the requirements of this rule.
7. Students who are ineligible scholastically at the end of a grading period are ineligible for the following grading period except that semester grades take precedence at the end of a semester.
8. When a student from a member school attends any night school approved by the Indiana State Department of Public Instruction and such student desires to count the credits earned toward IHSAA Scholastic eligibility requirements, he/she must obtain written approval from his/her high school principal that each specific course credit/s earned will be accepted and counted toward graduation. When establishing current scholastic eligibility requirements—he must be passing in the required four solid subjects taken concurrently in day-school and/or night-school. When four or less night-school subjects are applied toward current eligibility, such attendance shall count as one of the eight semesters of eligibility.

#### Section 2.

Each school will establish consistent grading periods within a semester and within the school year. Student scholastic eligibility will be determined at the time when grades or credits have been made a matter of final record in the principal's office but no later than noon of the fifth school day following the end of such determined grading periods. The principal shall certify these specific dates to the Association on his membership card.

#### Section 3.

Innovative course credits may be approved by the Board provided:

- b. courses are approved by the State Department of Public Instruction,
- c. the local Board of Trustees counts such credits toward graduation and
- d. total class time is equivalent to a regular course.

#### Section 4.

Scholastic deficiencies caused by the inability of a student to take or pass four regular subjects in the previous semester may be made up in night school, summer school, or correspondence school and counted toward eligibility provided:

- a. it be done in a regularly approved school or according to procedures approved by the State Department of Public Instruction.
- b. no more than two credits be given for work done during the summer months.
- c. all work be done and the credits be made a matter of final record in principal's office prior to the opening date of the semester in which eligibility is desired. This does not apply to incompletes.
- d. all work and credits be bona fide in every way and certified as such by the high school principal. In all other cases, the record at the end of the semester shall be final. Deficiencies in one semester cannot be made up in a subsequent semester for qualification purposes during that semester.

#### Section 5.

An incomplete or condition at the end of a grading period or semester counts as a failure until deficiency has been removed, providing such is removed before the end of the following grading period or summer, whichever comes first.

#### Section 6.

A student who withdraws from school for the semester within the first 15 days of school shall not be considered ineligible as to scholarship at the beginning of his next semester of enrollment, provided he was eligible when he withdrew.

#### Section 7.

Any student who carries at least fifteen hours of regular high school work is a high school student, provided such a student has been promoted to high school in the regular way and according to good school procedure.

\* \* \* \*

Q.1 May back work be made up and counted toward eligibility?

A. Yes, for incompletes only.

Q.2 Is a student, who has made sufficient credits to graduate at the end of semester one, eligible for athletics during semester two?

A. Yes, provided he is eligible in all other respects and does not actually graduate at the end of semester one. Such a student must be enrolled and carry adequate regular work during semester two.

Q.3 Does summer school credit in a school other than his home school jeopardize the standing of a student?

- A. No, provided the work is accepted by the State Department of Public Instruction and the home school authorities recognize the work of a non-home school for credit. In fact, the Association recommends summer school work of an approved type for students needing credits.
- Q.4 If a student fails to pass in four regular high school subjects during semester two, may they count work done in summer school toward eligibility?
- A. See Section 4 above.
- Q.5 Does the Association have a passing grade for scholarship?
- A. No, the passing grades of the schools are usually honored, but the Board reserves the right to check the validity of grades and credits and to act on their findings.
- Q.6 To determine eligibility, what constitutes the last semester?
- A. The last semester for any student is the last semester in which the student was enrolled in any school for any length of time after the first fifteen (15) school days.
- Q.7 At the end of the second grading period in a semester, is a student eligible if he makes passing grades in four regular high school subjects for this period.
- A. Yes, providing he meets the scholarship requirement for the previous semester.
- Q.8 Is a "condition" or an "incomplete" considered a "pass" in the Association?
- A. No. See Section 5 above.
- Q.9 Is a student, who carries three regular high school subjects and one or more eighth grade subjects, considered a high school student?
- A. Yes, a student who carries fifteen hours of regular high school work is a high school student, providing such a student has been promoted to high school in the regular way. Such a student would be considered enrolled in high school but would not be eligible because of insufficient subject matter.
- Q.10 Is a student who has been ineligible for a semester on account of scholarship eligible for the night of the last day of the semester?
- A. Only when the principal has previously certified that date for checking eligibility. See Rule 19, Section 2.
- Q.11 May a student's name be included on an IHSAA tourney entry list while scholastically ineligible?
- A. No. They must be eligible at that time, as well as on the date/s of the tourney.
- Q.12 What constitutes scholarship eligibility?
- A. In order to be eligible for a current semester a student must have passed in four regular high school subjects in his last semester of enrollment in any high school and he must be maintaining a similar amount of work for the current

semester. This statement for semesters applies to grading periods of the semester also.

- Q.13 If a student becomes ineligible on account of scholarship at the end of a semester, does this make him ineligible for one whole semester afterwards?
- A. Yes.
- Q.14 If a student becomes ineligible at the end of a grading period in a semester, when can he become eligible?
- A. At the end of the following grading period on the date previously certified by the principal for checking eligibility. See Rule 19, Section 2.
- Q.15 If a student becomes ineligible on Friday at the end of a grading period, is he eligible for that night?
- A. See Rule 19, Section 2.
- Q.16 If a student becomes eligible on Friday at the end of a grading period, is he eligible for that night?
- A. See Rule 19, Section 2.
- Q.17 When is a student maintaining his work during a semester?
- A. When he is passing in four regular high school subjects during the past and present grading period of that semester. Semester grades shall be substituted for the final grading period grades. Scholastic eligibility may be checked weekly or at mid-grading periods, etc. by schools desiring to prevent failures at end of grading periods.
- Q.18 If a student fails to pass in four regular high school subjects during the last grading period of a semester but earns credits in four regular high school subjects for the semester, will he be eligible at the beginning of the first grading period of the next semester?
- A. He will be eligible on the date previously certified by the principal for checking eligibility at the end of that semester. See Rule 19, Section 2.
- Q.19 If a student passes in four regular high school subjects during the last grading period of a semester but fails to earn credits in four regular high school subjects for the semester, will he be eligible at all for the next semester,
- A. No.

## RULE 20 — SEMESTER

One half of a school year constitutes a semester and parts of two semesters or a part of one semester does not make a semester.

## RULE 21 — TRANSFERS

Also see Rule 12—Enrollment and Attendance.

### Section 1.

No student who has transferred from another school shall be certified for interschool athletics until the principal has on file an

IHSAA Athletic Transfer Blank signed by the principal of the school from which the student transferred.

### Section 2.

When a student transfers from one school to another member school his residence eligibility shall be determined as follows:

- a. From a school of a city or school corporation to another school of the same city or school corporation—he shall be ineligible for 365 days unless there are definitely marked districts or territories and his parents make a bona fide change of residence to the new district or territory.
- b. From a public school to another public school—he shall be ineligible for 365 days or until his parents make a bona fide change of residence to the new district, whichever transpires first.
- c. From a public school to a non-public school whose territory does not include that public school district—he is ineligible for 365 days or until his parents make a bona fide change of residence to the new school territory, whichever transpires first.
- d. From a public school to a non-public school located in the same district—he shall be ineligible for 365 days.
- e. From a public school to a non-public school located in a territory serving the same district, he shall be ineligible for 365 days.
- f. From a non-public school to a public school located in the same territory, he shall be ineligible for 365 days.
- g. From a non-public school to another non-public school serving the same territory, he shall be ineligible for 365 days.
- h. From a non-public school to a public school located outside that territory, he is ineligible for 365 days or until the parents make a bona fide change of residence to the new district, whichever transpires first.
- i. From a non-public school to another non-public school located in a different territory, he is ineligible for 365 days or until his parents make a bona fide change of residence to the new territory, whichever transpires first.
- j. From a school located outside the district or territory in which his parents reside and subsequently transfers to a school in his home district or territory, he is ineligible for 365 days. This includes military schools which offer work on the secondary school level. The Board must review all cases in which the previous school was discontinued.

### Section 3.

A student, whose parents are separated or divorced and reside in separate school districts or territories, may choose residence with either parent. Once his place of residence has been determined, by mutual agreement of the parents, he cannot change residence to the home of the other parent without losing eligibility for 365 days.

*A student whose residence is changed by court order to either of his legal parents may be considered eligible as to residence pending review by the Board.*

### Section 4.

Students, whose parents change their places of residence during a semester, may complete the semester in the school in which they have been enrolled, then enter the school in the new district or territory in which their parents reside with residence eligibility in each school during enrollment therein.

A student who resides with his parents and attends high school in their residence district or territory may remain as a student with eligibility in athletics in this high school even though his parents move to another school district or territory, provided no undue influence is attached to the case in any way. (This rule is primarily to enable seniors to remain in the school in which they enrolled and remain eligible to compete in athletics when it is impractical for them to move with their parents.)

In every instance when the parents of an underclassman move, or plan to move, the principal must inform the parents of the IHSAA rule and if the athlete remains in the school after the end of the semester in which his parents move from the school district, it shall be the duty of the principal to obtain Association approval before he is certified for athletic eligibility. The principal shall report the circumstances and reasons why he remained in the school district on the form (Form J) prepared for that purpose. This report shall be sent to the Association office and to the principal of the high school in the district to which the parents moved. A student is not eligible during his next semester until his residence eligibility report has been approved by the Association (Eligibility approval should be requested prior to the semester in which eligibility is desired.)

### Section 5.

Change of residence as used in these rules shall mean a bona fide move about which there is no question. If the case is that of a change of residence of parents, the change shall be definite and complete.

### Section 6.

A student who has been enrolled in a correctional school may return to his home school with the same residence eligibility as when he left. Credits earned in the state school are considered the same as those earned in any other high school so far as eligibility is concerned.

### Section 7.

When a possible Unavoidable Change of Residence occurs, the Board shall have discretionary power to waive the transfer requirements in case of (a) orphans, (b) unavoidable circumstances necessitating a change of residence in order to have a home, (c) school board policies which provide for or require a change. No such student, however, shall be eligible to participate until written referral has been made by the principal/s involved (See Rule 3,

Section 7 for needed information and documents) and Board approval has been obtained.

\* \* \* \*

- Q.1 If a student transfers from a member school located in one city or school district to a school in another city or school district, how is his eligibility determined?
- A. By applying Rule 21 above. Following are some statements which will help to clarify this rule:
- A student usually attends high school in the district or territory where his parents reside.
  - If the parents move to another school district or territory, the student is eligible as follows (1) if he changes schools at the same time parents change residence, (2) if parents change during a semester, the student may change at the end of that semester, but no later and (3) student need not change schools at all, provided no undue influence is used to retain him there. An underclassman who does not transfer is ineligible until a "Residence Eligibility After Parents Move From District" form has been reviewed by the Association.
  - It is the duty of the principal to check carefully the record of every student who transfers from another school. The principal should also advise the students who contemplate making a change of schools as to the rules of eligibility regarding transfers.

- Q.2 When parents contemplate changing their residence soon to another school district or territory, may a student transfer in advance and be eligible for competition?
- A.(1) They may transfer but will be ineligible for competition until parents definitely change their residence to the second school district or territory.
- A.(2) In such cases the Principal shall inform the student and parents that, if for any reason they do not move and student returns to first school, they shall be ineligible for 365 days.

\* \* \* \*

- Q.3 May practices in one school be counted as such in another school where a student changes schools?
- A. Yes, provided definite proof of the practices are on file from the principal of the school in which the practices were held.

## RULE 22 — UNDUE INFLUENCE

### Section 1.

The use of undue influence by any person or persons to secure or to retain a student or to secure or to retain one or both of the parents or guardians of a student as residents, may cause the student to be ineligible for high school athletics for a period subject to the de-

termination of the Board and shall jeopardize the standing of the high school in the Association.

NOTE: By action of the Council and Board, this rule is interpreted to include any undue influence that may be exerted by anyone on a student who has not yet entered the ninth grade, to enroll in a school other than their home school or the one they ordinarily would be expected to attend or any school where they and/or their parents previously had filed a choice of subject matter card or other written evidence of preliminary enrollment or registration.

### Section 2.

No member school student shall be eligible to participate in any interschool contest under the rules of the Association, if it shall be shown that they or any member of their family are receiving any remuneration, either directly or indirectly, to influence them or their family to reside in a given school district in order to establish eligibility on the team of said school, and any school permitting such participation shall, upon satisfactory evidence, submitted to the Board, be suspended from membership in the Association for a term of not less than one year.

NOTE: This rule shall not interfere with the right of high school pupils to work during vacation or during out of school hours in order to earn their way through high school. It shall apply to the use of any funds created by gift, or by subscription with the intent of offering such funds for free use by player or any member of player's family as an inducement to change residence to the district of said school and to maintain residence therein.

\* \* \* \*

- Q.1 Is it the duty of the Association to prove that undue influence has been used?
- A. No, the member school principal has agreed to conduct his athletic activities according to the rules and regulations of the Association. Where there is a question, it is the duty of the high school principal to meet the question. He cannot certify that his students are eligible unless he knows that they are eligible.
- Q.2 Why should a school be penalized because some person outside of school uses undue influence?
- A. Usually a school is not penalized unless it is involved or uses the student in question in athletics. In the second place, the results are the same whether some person in school or some person outside of school uses undue influence: An athlete that has been retained or secured through the use of undue influence and the school that uses such an athlete on teams in interschool athletic competition profits by the use of undue influence.
- Q.3 What constitutes the use of undue influence?
- A. An all-inclusive answer for all time and under all conditions cannot be given, but the use of any of the following inducements may come under the rule:

1. Offer or acceptance of money or other valuable consideration.
2. Reduction or remission of regular tuition.
3. Waiving the requirement of legal transfers according to law.
4. Offer or acceptance of board, room or clothing.
5. Offer or acceptance of remuneration for work in excess of amount regularly paid for such service.
6. Free transportation.
7. Transportation by coach, principal, teacher or school official.
8. Offer of acceptance of school privileges or considerations not granted to other students.
9. Making home with coach, principal, teacher or school official.
10. Free rent or reduced rent for parents.
11. Offer or payment of moving expenses of parents.
12. Any inducement to get parents or students to change residence for athletic reasons.

## RULE 23 — BASEBALL

Note: See Rule 9 which applies to all sports.

### Section 1.

The National Alliance Edition of Baseball Rules shall govern in baseball except as modified by the Association.

### Section 2.

*Interschool baseball contests shall be limited to the period/s: (1) between the first day of school or September 1 and October 15 and or (2) between the Monday following our State final basketball tournament and the date of our State final baseball tournament or the end of conference play, whichever is later.*

### Section 3.

*The maximum number of interschool baseball contests for the baseball team prior to our State baseball tournament series shall be thirty. The penalty is suspension. Schoolday games shall be limited to twenty-two school days.*

*Note: The first tourney will count as one contest. In succeeding tourneys all games shall be counted as contests.*

### Section 4.

There shall be ten separate days of organized baseball practice under the direct supervision of the high school coaching staff by each player preceding participation in interschool contests. Only one practice may be counted for any one day.

## Section 5.

A pitcher may not pitch in more than ten innings in any three consecutive calendar days. This period begins when he officially enters the game as a pitcher and includes season and tournament games.

## Section 6.

### Independent Summer Baseball

a. High school students may play on independent baseball teams during the summer when school is not in session without jeopardizing their standing or the standing of their school in the Association provided they do not play under assumed names, provided they do not accept remuneration, directly or indirectly for their playing, and provided their school is not still competing for conference awards.

b. Reasonable meals, lodging and transportation may be accepted by the students if such are accepted in service rather than in money or in some other material form. The Association expects all high school students to so conduct themselves at all times that they, their high school and the Association will be honored.

c. All such playing should be checked carefully and frequently. The requirements should be extended to all students. Managers of independent teams should be warned of the dangers of using high school boys on baseball teams. A professional in one sport is a professional in all sports as far as eligibility in the Association is concerned.

d. High school students, who play on baseball teams other than their high school teams during the *baseball season*, make themselves ineligible for baseball in high school in that *baseball season*.

e. High school students, who play on baseball teams other than their high school teams during the *baseball season*, must have written permission of their high school principal on file in the principal's office prior to the participation. The responsibility of securing and filing this written permission rests with the student, the manager of the non-high school team and finally with the high school principal. See Note at end of next sub-section.

f. The Association considers that a member school is entitled to the high school students in baseball during the *baseball season* and that participation in baseball elsewhere should not take place except by the written permission of the high school principal in each case.

Note 1: Permission granted by a principal to a boy to play baseball on a team other than his school team during the *baseball season* makes the boy ineligible for the school team in baseball. No permit can be issued to violate any of the rules of the Association.

The purpose of the permit is to keep the principal informed about his students.

Note 2: It is not considered a violation of present Association rules for a member school, during the summer vacation period, to sponsor a team composed entirely of its own students in such sports as baseball, softball, tennis and golf. While an athletic contest

conducted under this interpretation would be similar to that of other independent amateur organizations, it is recommended that participating schools, through their principals, mutually agree to abide by Association rules except for modifications as may be necessary.

#### Section 7.

A member school student shall not be considered as violating their amateur standing if they participate, during the summer vacation, in baseball schools and clinics sponsored by professional major and minor league baseball clubs.

Note—Any employee or school official of a member school who acts as an agent or encourages any negotiations between a high school student and representatives of Organized Baseball prior to the student's graduation, is violating the Agreement between the National Federation and Organized Baseball. Such action on the part of any employee or school official may cause their school to be suspended from the Association for a period to be determined by the Board.

Any evidence that a representative of Organized Baseball is attempting to or has signed a student prior to graduation should be reported to the Association at once. This is a violation of the Agreement between the National Federation and Organized Baseball, and the penalty for such action is under the jurisdiction of Organized Baseball.

#### Section 8.

High school students playing on their high school baseball team during the summer while their team is still competing for conference awards make themselves ineligible by participating on any other baseball team during that time.

\* \* \* \*

Q.1 Does a high school student violate the rules of the Association by playing independent baseball during the summer?

A. High School students may play independent baseball during the summer months when school is not in session without jeopardizing their standing in high school, provided they do not accept remuneration, directly or indirectly, provided they do not play under assumed names, and provided their school is not still competing for conference awards. Reasonable meals, lodging and transportation (college trip transportation excluded) may be accepted by such players if accepted in service and not in any other way. All such playing should be checked by principals. (See Rule 23, Section 5). (Note: This answer applies to other summer sports, not having definite seasons, provided other rules and regulations of the Association are observed.)

Q.2 Is a student who plays on an independent baseball team during semester one, ineligible for high school baseball during semester two?

A. No, only during the first day of school or Sept. 1 to Oct. 15 season.

Q.3 If a student plays on an independent team in baseball or softball during the school year, does he make himself ineligible for baseball in high school?

A. No.

### RULE 24 — BASKETBALL

Note: See Rule 9 which applies to all sports.

#### Section 1.

The Official Rules of the National Basketball Committee of the United States and Canada shall govern basketball.

#### Section 2.

All games other than first-team games shall be played in quarters of six minutes in length.

#### Section 3.

The maximum number of games for the regular schedule of any team in basketball shall be eighteen. (The penalty is suspension.)

a. A player may participate in a maximum of seventy-two quarters of interschool basketball, and one invitational tourney during any one season. No player may participate in more than four quarters in any one session. If a player participates in two invitational tourneys, the quarters played in one tourney, shall be included in the seventy-two quarters permitted during the season.

b. A record of the quarters played in basketball by individual players shall be kept on file in the principal's office at all times for his information in certifying eligibility of players.

#### Section 4.

"Donkey Basketball," "Skruball," "Skateball" or any similar game in which a basketball and/or basketball goals are used shall be considered a game of basketball. High school students who participate in "Donkey Basketball," "Skruball," "Skateball" or similar games, shall be subject to Association eligibility rules as in regular basketball games.

#### Section 5.

No interschool basketball games shall be played by students or schools prior to November 1 (*Nov. 15 effective 1974-75*) of each year or after the closing date of the sectional tourneys of the State Basketball Championship Series each year, except by such students and such schools as are participants in the tourneys of the State Basketball Championship series; and the close of the basketball season for these students and schools shall be not later in any event than the date of the Final Tourney or not later than the elimination of the school in one of these tourneys if earlier than this final tourney date. The penalty is suspension.

## PART III — GIRLS' INTERSCHOOL ATHLETICS

### POLICIES AND STANDARDS GOVERNING THE ADMINISTRATION OF GIRLS' INTERSCHOOL ATHLETICS

Competitive sports are an important part of the total physical education program and opportunities for instruction and participation should be included in the educational experiences of every girl in the secondary school. Sports are an integral part of the culture in which we live and are valuable social tools which may be used to enrich the lives of girls in our society. Sports opportunities of all levels of skill should be available to girls who wish to take advantage of these experiences.

In the secondary schools, a program of intramural participation should be arranged to augment a sound and comprehensive instructional program in physical education for all girls. Interschool programs should not be organized until after there are broad instructional programs and a sufficient allotment of time, facilities, and personnel for new programs. **The interschool program should not be promoted at the expense of the instructional or intramural programs.**

When properly organized and conducted, interschool athletics should provide numerous opportunities for girls to participate in activities which promote self-confidence, growth and development, leadership qualities, and the establishment of desirable interpersonal relationships. These values are more readily attained when the program is based upon accepted standards and practices. When favorable conditions are present, competitive experiences may be wholesome and beneficial and result in acceptable conduct and attitudes. The adoption of practices best suited for the attainment of desirable outcomes is the responsibility of all associated with competitive events. *Administrators*, players, teachers, coaches, officials, and spectators must share the responsibility for valid practices in competitive sports for high school girls.

The rules and regulations for girls' interschool athletics of the Association are based upon the following principles and policies. Those schools who wish to offer an interschool program in grades nine through twelve must adhere to these policies.

## INDIANA LEAGUE OF HIGH SCHOOL GIRLS' ATHLETIC ASSOCIATION

### —Purpose—

Many girls in high school are interested in a more extensive program of physical education than can be provided in the regular physical education classes. This desire for a more extensive physical education program has led many high schools to organize some type of girls' athletic association. In 1931 the Indiana League of High School Girls' Athletic Association was formed, with the purpose of stimulating the co-curricular phase of the high school girls' physical education program. Membership in the League is open to any high school in the State of Indiana. The League has the endorsement of the Indiana High School Athletic Association and the Division of Health and Physical Education of the Indiana State Board of Health.

The State League offers much to both physical education teachers and students. It provides opportunities for sponsors and students to exchange ideas, share problems, receive encouragement, and engage in a variety of learning activities. The enthusiasm generated through the enjoyment of learning and doing things with people of like interests is one of the main reasons the League is steadily growing.

### —Activities—

Each organization carries on its own program of varied activities for which points are given. The purpose of awarding points is to encourage regularity of attendance and to furnish a uniform basis for awards, if a school desires to use awards. The *Sponsor's Handbook* explains the suggested point system.

The State League sponsors activities on both a state and a district basis. Each spring the League, with the co-operation of a state college or university physical education department as host, sponsors a Wall Plaque Winners' playday. Attending this playday is perhaps as great an honor as winning the wall plaque, for here outstanding girls from all over Indiana come together for a day of fun and sport. Each fall the League sponsors a State Leadership Camp—training girls and inspiring both girls and sponsors to be better leaders in

their organizations, schools and communities. District activities include dance days, playdays, basketball clinics, and week-end camps—usually two or three such activities each year.

"Sportingly Yours," published six times yearly, contains news of other G.A.A. groups, ideas, new materials, bulletin board materials, and professional articles. Both sponsors and students find it interesting and helpful. "Sportingly Yours," the official organ of the Indiana League, is edited by a high school G. A. A. and is published by the Indiana State Board of Health.

## PART IV — NATIONAL FEDERATION OF STATE HIGH SCHOOL ASSOCIATIONS

Indiana was admitted in 1924. The National Federation was organized in 1920 and now consists of 50 member state high school associations. Canadian provinces of Manitoba, New Brunswick, Nova Scotia, Ontario, Prince Edward Island and Saskatchewan are affiliated.

These state associations have united to secure the benefits of co-operative action which eliminates unnecessary duplication of work and which increases efficiency through the pooling and coordinating of efforts of all who are engaged in high school athletic activities.

The legislative body is the National Council made up of one representative from each member state association. Such representative must be an officer or a member of his state board of control. The executive body is the Executive Committee of eight members elected by the National Council from the membership of the Boards of Control, Commissioners and executive secretaries of member state associations from eight territorial sections as outlined in the constitution. Terms are staggered and for three years.

The growth in size and influence of the state high school associations and their National Federation insures some degree of teamwork on the part of 22,000 high schools and this teamwork has enabled them to formulate policies and plans for improving high school athletic conditions and to make these plans function. The National Federation probably represents the largest closely knit organized body of athletes in the world. The opportunities for contributing to the welfare of the high school athletic program are unlimited.

The Federation was organized primarily to secure proper adherence to the eligibility rules of the various state associations in interstate contests and meets. As the prestige of the national organization grew, a program for the sanctioning of interstate meets was developed. This later led to definite action relative to national and sectional athletic events. At the present time, no national athletic meet or tournament is sanctioned. Meets or tournaments, which involve the schools of more than one state, are sanctioned in accordance with definite limitations in connection with the distance to be traveled, the type of sponsor, the amount of school time involved, and extent to which such events interfere with smaller meets which insure participation by greater numbers of those who need the training. The scope of the National Federation work has broadened so that all high school athletic and many non-athletic groups profit through an exchange of experiences and a pooling of interests.

The activities of the National Federation are based on the belief strong state and national high school athletic organizations are necessary to protect the athletic interests of the high schools, to promote an ever increasing growth of a type of interscholastic athletics which is educational in both objective and method and which can be justified as an integral part of the high school curriculum, and to protect high school boys from exploitation for purposes having no educational implications. To accomplish these things, it is necessary for high school men to exercise teamwork on a nationwide scale.

## HISTORY OF IHSAA

The first attempt to organize the high schools of Indiana in a single Association for the purpose of handling athletic activities was made in a meeting of the Northern Indiana Teachers' Association held at Richmond in April, 1903. At this time there was a conference of high school principals, and the conference ended with a body of suggested rules and regulations, called the Richmond Agreement. Due to the fact that there was no central organization having executive power, the Richmond Agreement did little more than point the way toward something better.

Principal J. B. Percy, of Anderson, issued a call for a meeting of high school principals interested in a State Athletic organization for December 5, 1903. At this meeting a provisional constitution was adopted. At a similar meeting on December 29, 1903, a final constitution was adopted and a Board of Control of three members was chosen to administer the affairs of the IHSAA.

## IHSAA DISTRICTS

The first Board of Control was made up of Principal George W. Benton, Shortridge High School, Indianapolis; Superintendent Lotus D. Coffman, Salem, and Principal J. T. Giles, Marion. These men thought and planned well, and we are enjoying the fruits of their vision.

There were fifteen (15) high schools belonging to the IHSAA, March 1, 1904. The membership had a gradual growth through the years, and now includes almost all of the high schools in the state. The peak membership of eight hundred twenty (820) was reached in 1942, the year that private, parochial and institutional schools were admitted to the Association.

In the beginning, one member of the Board of Control served as Secretary, but it soon became very evident that this office furnished enough work for a special man. It was also seen that the future of the organization demanded that the office of Secretary be made more permanent than the office of Board Member. Accordingly, at the annual meeting in 1906 the office of Permanent Secretary was established, and Principal J. T. Giles of Marion was chosen by the Principals to be the first Permanent Secretary. Principal Giles resigned on December 26, 1912, and Principal Isaac E. Neff, South Bend, was chosen by the principals to succeed him. Principal Neff resigned March 15, 1913, and the Board of Control appointed Principal Arthur L. Trester from Alexandria to serve as Permanent Secretary until the next annual meeting in December, 1913. At this meeting, Principal Trester was chosen by the principals as Permanent Secretary.

The Board of Control consisted of three members, chosen by the principals in their annual meetings, until the annual meeting of October 27, 1916. At this meeting it was decided to divide the State into five districts for administrative and representative purposes, and that each district should have one representative on the Board of Control, chosen by mail ballot from his own district by the principals of his district.

In September, 1925, by a referendum vote the principals passed a legislative body proposal calling for four members from each of the five (5) IHSAA districts. The five members of the Board of Control, serving ex officio, and the fifteen other members elected by the principals in a mail vote constituted this legislative body. Prior to this plan all legislation was done at the annual meeting or by referendum voting by mail. This Legislative Body of twenty members passed on all proposals submitted by the high school principals. It was the law making body of the Association. The plan was considered a step in advance in state administration and legislation in athletic activities.

On December 13, 1930, the Legislative Body considered and passed without a dissenting vote the provisions for an Athletic Council. The plan in full continued the five IHSAA districts in the state and arranged for five representatives on the Athletic Council from each district by classes determined by enrollments in the high schools, thus making the Athletic Council a body of twenty-five members representing all sizes of high schools and all districts of the state at all times and elected by the high school principals in the membership. A provision was included for the selection of a 5-man Board of Control from the membership of the Athletic Council by

the members of the Athletic Council. The Athletic Council took over the duties of the former Legislative Body and is considered the law making body of the Association.

The title "Permanent Secretary," established in 1906, was changed to "Commissioner of High School Athletics" in October, 1929, by the Legislative Body, and the Commissioner was granted the powers and duties belonging to a Commissioner of Athletics. Mr. Trester continued to serve as commissioner until the date of his death, September 18, 1944. The Board of Control designated Superintendent Morris E. McCarty of Lafayette to serve as Acting Commissioner. In December, 1944, Principal L. V. Phillips of Vincennes was chosen Commissioner to take office January 1, 1945. In 1944, the Board of Control was given authority to employ an Assistant Commissioner. Robert S. Hinshaw, Director of Athletics in Rushville High School, was chosen in November 1945 to take office December 10, 1945 to become the first Assistant Commissioner of Athletics for the IHSAA. In July, 1961, Herman F. Keller of Evansville Bosse High School became the second Assistant Commissioner of Athletics after the death of Mr. Hinshaw. On the retirement of L. V. Phillips, July 31, 1962, the Board of Control selected Phil N. Eskew, Superintendent, Huntington Public Schools, as the third Commissioner of Athletics. The Board conferred the title of "Honorary Commissioner" on L. V. Phillips. On August 1, 1969, Ward E. Brown, Principal of Crawfordsville High School, was selected as Assistant Commissioner to work with Mr. Eskew and Mr. Keller, and on January 1, 1972, Miss Patricia Roy of East Gary was selected as Director of Girls' Athletics for the Association. Mr. Keller retired as Assistant Commissioner on August 1, 1973 and was succeeded by Charles F. Maas, Athletic Director from Arlington High School, Indianapolis.

The primary purpose of the organizers of the IHSAA, to manage and to foster high school athletics on a high plane, has been upheld as an ideal by the Association through the life of the IHSAA. New and advanced steps have been taken whenever conditions made them necessary. In the beginning, the Association concerned itself largely with track and football. As time went on it became increasingly evident that the IHSAA should assume the initiative for a well balanced athletic program to meet the needs of all schools and all students desiring to participate in athletics. The Association now sanctions 10 different sports for boys and 13 different sports for girls. Seasons culminate with State Championships in all 10 sports for boys and 4 sports for girls.

A study of the men who have served on the Board of Control through the years will show clearly that the activities of the IHSAA have been in good hands. The titles and addresses are given as they were when the men were Board of Control members. A complete list of former Board members follows:

"that the IHSAA rule (Rule 9, Section 7) regarding male-female classification is unreasonable and denies equal protection as guaranteed by the Fourteenth Amendment to the Constitution of the United States." "Until girls programs comparable to those established for boys exist, the rule cannot be justified."

This decision was made by Justice Donald H. Hunter, concurring were Justices Dixon W. Prentice and Roger O. DeBruler. Chief Justice Norman F. Arterburn and Justice Richard M. Givan dissented.

Since the appellants challenge was directed only to "non-contact sports such as golf, swimming, tennis, track and gymnastics" it must be assumed that cross country would have to be included.

Therefore, the position of this Association as of the date of the above decision must be:

- A. That Rule 9, Section 7, cannot be enforced in non-contact sports such as cross country, golf, gymnastics, swimming, tennis and track.
- B. That girls and boys must be provided equal opportunity to try-out and participate on ANY high school team in the above named sports.

## Cross Country

Terre Haute North won its first State Cross Country Championship in a very convincing manner. This was the twenty-seventh annual state cross country championship meet. Interest in cross country continually tends to grow supported by the fact that another record crowd was in attendance.

For the first time the meet was run at a distance of 2 1/2 miles instead of the traditional 2 miles. Also a team was composed of seven contestants instead of six.

Terre Haute North, the pre-meet favorite, won as expected on the team scoring basis. Terre Haute North runners placed 5th, 6th, 23rd, 28th and 37th for a total of 99 points.

Stan Mavis of Greensburg High School with a burst of speed at the end swept to the individual championship. Mavis' time was 12:14.4, a new record since this was the first race over 2 1/2 mile distance. Dirk Berard of Crawfordsville was second in 12:16.4. In third place was Richard Magley of Ft. Wayne Northrup in 12:17.75. Bill Foley of New Albany—12:17.8 and Mark Dively of Oak Hill—12:19.0 finished fourth and fifth respectively.

Sixteen complete teams and nine individuals participated in the State Meet. A total of one hundred twenty one contestants participated.

## Girls' Volleyball

The First IHSAA State Tourney Series in Volleyball for Girls was held at Beech Grove High School on December 9, 1972. 270 teams and 2700 girls began sectional competition at 32 sites.

South Bend St. Joseph's High School reigns as the first IHSAA sanctioned Girls' State Volleyball Champion by defeating a fine team from Ben Davis High School (Indpls.) in the final match 15-5, 15-5.

The afternoon session saw Taylor defeat Adams Central 5-15, 19-17 and 15-13 in the closest and most exciting match of the day. Enroute to the championship, St. Joe dropped Hammond Gavit in the quarter finals by scores of 15-2, 13-15 and 15-2. Springs Valley and Bloomington South battled it out in the third match of the afternoon with Bloomington South edging out a victory by scores of 15-6, 11-15 and 16-14. Ben Davis reached the semi-finals by defeating Huntington North 15-6, 15-8 in the only two-game match of the afternoon.

St. Joe bumped Taylor in the semi-finals 15-9 and 15-3 while Ben Davis was forced to three matches to beat Bloomington South 10-15, 15-5, 15-10 to earn the right to play a strong St. Joe team in the finals.

Marianne Lies of St. Joe won the Mental Attitude Award which is presented to the player who excels in scholarship, citizenship and athletic ability. Marianne is a senior at St. Joe and has been a varsity player since grade 10. She has set records in the areas of most successful serves and most spikes completed for her team.

Congratulations are in order to St. Joe, Marianne, and Coach Glorianne Mather for their fine representation during the tourney.

The Association also commends the seven other finalists for their fine representation and display of good sportsmanship.

# Swimming

Another record breaking number of high school swimming teams participated in the eight IHSAA Sectional swimming meets. One hundred and seven teams swam competitively during the season and all 107 participated in sectional meets. This was a gain of 5 over the previous year.

The state swimming meet was highly competitive in all events. For the first time it was a complete sell-out which speaks well for the IHSAA swim program.

Sectional meets were sponsored at Anderson, Columbus North, Gary Wallace, Kokomo Haworth, Lafayette Jefferson, South Bend Washington, Valparaiso and Warren Central. Respective sectional champions at these sites were Muncie North, Columbus North, Munster, Carmel, Lafayette Jefferson, South Bend Jackson, Valparaiso and Southport.

Four new records were established. Southport established a new mark in the 200 Yd. Medley Relay in the excellent time 1:41.420. The swimmers were Richard Gilbert, Dale Huckleberry, Ted Pollard and John Shuck. Mark Mamula of South Bend Clay established a new mark in the 200 Yd. Individual Medley in the time 2:00.056. South Bend Jackson established a new mark in the 400 Yd. Freestyle Relay. Matthew Chelich of Munster with a phenomenal total of 505.25 points established a new mark in the One Meter Diving. Tom Henrichs of Warren Central was second, Kevin McWhirter of Bloomington North was third.

The Fourth Annual Mental Attitude Award in swimming was presented to Scott Jessup of South Bend Jackson.

# Gymnastics

Before a crowd of some 2500 spectators for the two sessions, Columbus North defended its state championship in the State Gymnastics Meet held at the Warren Central High School gymnasium. This was the largest crowd that has been in attendance at any of the state gymnastics meets. Columbus North won two individual championships and placed one or two individuals in all of the remaining events except one.

Sectional gymnastics meets were held at Concord (Elkhart), North Central (Indianapolis) and Wabash High Schools. Jimtown, Columbus North and Heritage were the respective winners at these sectional sites. The first five contestants in each event including the All-Around qualified and advanced to the state meet.

Maurice Barrett of Jeffersonville won the All-Around championship. Mike Gilpin of Pike was second and John Underwood of Warren Central was third. Ken Stockton of Columbus North was presented the first Mental Attitude Award in gymnastics by the IHSAA Board of Control. Mr. John Hines, coach of Columbus North, who is chairman of the National Federation of State High School Associations Gymnastics Rules Committee was cited with an award by the National Federation Organization.

## Basketball

New Albany High School won the sixty-third annual State Basketball Championship Tournament before a throng of 17,386 in the Indiana University Assembly Hall. A record crowd of 37,744 for both sessions broke last years two session record. The Bulldogs closed the season with a 21-7 record.

In the first afternoon game the New Albany Bulldogs took an overtime thriller from the Franklin Grizzly Cubs by a score of 77-76. Franklin led at the end of the first quarter 15-14 and 36-30 at half time. However, New Albany charged back in the third quarter and took a 54-52 lead at the end of the third quarter. During the fourth quarter New Albany scored 16 points and Franklin 18 points, leaving the score tied at the end of regulation time. During the overtime New Albany outscored Franklin 7-6 and won by a score of 77-76.

The second afternoon game turned out to be one of the most fantastic high scoring games ever witnessed at a state basketball tournament. South Bend Adams High School defeated Anderson High School by a score of 99-95. The 194 total points set a new scoring record for both teams. Anderson led at the first quarter 23-19. South Bend Adams led 47-44 at half time, 69-61 at the third stop and 99-95 at the end of regulation time. Near the end of the game Anderson rallied to within one point 94-93 of South Bend Adams. The shooting of the two teams was incredible. Adams hit 41 of 81 attempts for a .506 shooting percentage. Anderson hit 42 of 81 for a .519 percentage.

In the championship game New Albany, after a slow start, took command in the second quarter and was in control the rest of the way. South Bend Adams started fast and led 22-14 at the end of the first quarter. New Albany outscored Adams 22-8 in the second quarter and led 36-30 at half time. New Albany led 52-48 and 84-79 at the third quarter stop and end of the game respectively. Jimmy Webb of Adams was high for the game with 34 points. Julius Norman and Norman Mukes were high with 25 and 21 points respectively for New Albany.

The Board of Control selected Garry Abplanalp of Franklin as the recipient of the coveted Arthur L. Trester Award for Mental Attitude.

A total of 420 high schools participated in the state tournament program.

**SECTIONAL TOURNEYS**  
**February 19-24, 1973**

The following bases were used in selecting sectional, regional and semi-state centers:

(1) Invitations filed by the principals. (2) Locations. (3) Transportation facilities. (4) General conditions—attitude of local authorities, floors, seating capacities and entertaining facilities. (5) Rotation. (6) Success and satisfactory management of previous tourneys. (7) Adjustment because of reorganization and consolidation.

Many schools have been assigned by counties but there are a number of exceptions which are clearly indicated. Some changes were made to equalize the number of participating teams resulting in better balanced schedules or the use of less school time. The plan arranged is to have no less than 4 teams and no more than 8 teams in each tourney, and the assignment of all schools is given in the list which follows. The number of schools that probably will enter the tourneys is indicated. No doubt these numbers will

be very nearly correct for this year. Correct information will not be available until the entry blanks have been received and accepted by the Board of Control. The numbers are tentative. The winners will constitute the teams in the Regional Tournaments according to assignment.

# Girls Gymnastics

Saturday, March 24, 1973

Before a crowd of some 1,100 spectators for two sessions, Columbus North captured the first Girls' State Championship in the optional level at North Central High School. Finalists from 51 schools competed in the meet.

One hundred schools with 1,774 gymnasts began sectional competition at sixteen centers. Regional competition was held at Concord (Elkhart), Edgewood, Noblesville and Peru with Portage, Columbus North, Indianapolis Howe and Fort Wayne Northrop advancing to the state for the coveted optional team title. The first three gymnasts in each event at the beginning, intermediate and optional level qualified in each regional and advanced to the state.

Jennifer Cox of Wawasee captured two gold medals in vaulting and uneven bars to edge Deb King of Noblesville for the optional all-around title.

Susan McLellan of Lowell High School was selected by the Board of Control as the winner of the Mental Attitude Award. Susan is a senior honor student and was chosen because of scholarship, citizenship and gymnastics ability. She competed against 27 other girls in the optional level and placed fourth in the optional all-round competition. Susan plans to continue her education at Ball State University with a major in education. Congratulations are in order to Susan and Coach Wilma Smith for this fine achievement. Plaudets are also in order to Coach Linda Wagonseller and the Columbus North team for their fine representation.

The Association also commends all of the 100 participating schools for the fine representation and display of sportsmanship throughout the tourney series.

## Track and Field

Second year high school Fort Wayne Wayne pulled out a two-point victory in the State Track and Field Championship Meet at the North Central High School track. This was the seventieth annual state meet sponsored by the Indiana High School Athletic Association. A capacity crowd was in attendance.

Four new records were established. Grant Glackman of Tecumseh High School (Lynnville) set a new standard in the Pole Vault at 15'7 3/4". Richard Burr of Gary West set a new record in the 180 yard low hurdles around one turn in the time of 19.2 seconds.

Harold Vaughn of Lafayette Jefferson decisively bettered the old mark in the long jump with a leap of 24'3 1/4". Steve Clutter of Tecumseh also bettered the old standard jump with a leap of 24'1 1/2".

Russell Lindner of Portage established a new mark in the newly sponsored IHSAA discus event with a toss of 166'2".

The Board of Control unanimously selected Grant Glackman of Tecumseh (Lynnville) as the twelfth recipient of the Robert S. Hinshaw Award. The recipient must excel in scholarship, mental attitude, citizenship, as well as athletic ability in track and field.

# Baseball

Lafayette Jefferson High School won the seventh annual state baseball championship. This was the second state championship for the Bronchos. They won a come-from-behind victory over LaPorte High School. Four hundred sixteen high schools entered the sixty-four sectionals.

The state tournament was held at Bush Stadium. Lafayette Jefferson, Jeffersonville, LaPorte and Indianapolis Chatard composed the final four teams.

In a tight pitcher's battle, Lafayette Jefferson survived Jeffersonville 1-0 in the first game. Bill Olds limited Jeffersonville to three hits.

LaPorte defeated Indianapolis Chatard 4-2 in the second game. A three-run third inning was the big inning for LaPorte. After a rather shaky start, pitcher Mitch Dunlap was in control the rest of the way.

In the final game, the Bronchos spotted LaPorte a six-run lead. However, Lafayette with its back to the wall fought back and eventually won 8-6. Bill Olds pitched the last three innings and was credited with his second victory of the day.

The Board of Control unanimously selected Bill Olds of Lafayette Jefferson as recipient of the seventh annual L. V. Phillips Award.

## ERNST & ERNST

One Indiana Square, Suite 3400  
Indianapolis, Indiana 46204

Board of Control  
The Indiana High School  
Athletic Association  
Indianapolis, Indiana

We have examined the statement of cash receipts and disbursements and the schedule of meeting expenses of The Indiana High School Athletic Association for the year ended June 30, 1973, and the schedule of securities owned at June 30, 1973. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. We previously made a similar examination for the preceding year.

We reconciled the balance of cash on deposit at June 30, 1973, with the amount reported directly to us by the depository. Our examination included reconciliation of recorded cash receipts for the year with deposits as evidenced by bank statements on file. Canceled checks returned by the bank were compared with the record of cash disbursements and the cash disbursements, were supported on a test basis by examination of invoices, expense reports, and other data. Securities owned by the Association at June 30, 1973, were inspected.

In our opinion, the accompanying statement of cash receipts and disbursements, and schedules of meeting expenses and securities owned present fairly the recorded cash transactions of The Indiana High School Athletic Association for the year ended June 30, 1973, and the securities owned by the Association at June 30, 1973.
