## PRESIDENT'S MESSAGE

By  
**Don Sakel**

One of the greatest honors of my life has been bestowed upon me to serve as your President of the I.H.S.A.A. Board of Control for this coming school year. Since 1961 I have been involved with the affairs of our Association: serving as a member of the Athletic Council from 1962 through 1967; as President of the Athletic Council in 1964-65; as a member of the Board of Control in 1966-67, and as a re-elected member to the Athletic Council in 1969. Personally knowing Mr. L. V. Phillips, Mr. Herman Keller, and Mr. Phil Eskeew has been a paramount inspiration and honor for me.

In this brief message I wish to say that with all of the pressures, criticisms, even some litigation, the I.H.S.A.A. is in excellent health and the future is bright indeed.

In my visits throughout the State of Indiana and in talking with many other leaders in education and athletics through the National Federation of State High School Associations, I have concluded that our Association is the envy of many. This leadership role that Indiana Athletics has attained on a national level did not come about by coincidence, but primarily through the type of leadership administered by the Commissioners' office and the secondary schools of our great state. Knowing the accomplishments of the sixty-five men who have preceded me in this position, it is a little frightening to me anticipating the year ahead. Therefore with your cooperation, I will do my best to maintain the high quality which has been established.

The purpose of athletics in our schools is to make better citizens of our young people. We have done this in the past years and shall continue to do so in future years. This is our primary reason for existence and we should never forget it. It is through our examples that our young people learn the values of tomorrow. The I.H.S.A.A. is only the controlling arm of athletics, and the body of an organization is only as strong as each of its parts or members. Consequently, your support and cooperation as member schools are essential for a successful existence.

There will be many problems for us to face during this coming year: rule decisions, reorganization of school districts, alignment of tournament sites, dilemmas concerning the ever increasing dollar costs to run our Association. On the bright side, nothing is more pleasing to me than the growth of girls' athletics in our Association. Girls' athletics are here now and can only get stronger in the years to come. It might be well for each member school to take a look at its program and ask how it is going to meet this challenge. It is evident that girls' athletics will not only make our secondary school program stronger, but will strengthen our Association to its rightful position. Steps our Association has taken indicate some good things are forthcoming. With this growth in girls' athletics it became necessary to employ a Director of Girls' Athletics and an Assistant Director of Girls' Athletics, assigned for supervision and coordination of girls' athletics. Even though this program is limited at the present time, we can clearly see that in the coming years it will become stronger and hopefully equal to that of the boys. What are you doing in your school to promote girls' athletics? It might be well worth your time to take a look and see.

The year ahead will demand a great deal from all of us. We are expecting and will demand the best from our commissioners, Athletic Council, member principals, coaches, athletes, and fans. In speaking for the other members of our Board, let me say that we were elected to serve you and this Association and intend to do this to the best of our ability. This board believes in the I.H.S.A.A., knowing it has served you and us well in the past and with your help and Almighty God's, we will continue to do so in the future.

May this be the best year for High School Athletics in Hoosierland.

## CONSTITUTION OF INDIANA HIGH SCHOOL ATHLETIC ASSOCIATION

### Preamble

The principals of the secondary schools of Indiana recognizing the need for a voluntary association of schools to plan, organize and regulate a wholesome, amateur program of interschool athletic competition in which school members of such association would participate, hereby consent and agree to establish the following as the Constitution of the Indiana High School Athletic Association.

### Article 1 — Name

The name of this association shall be the "Indiana High School Athletic Association." (The abbreviation of this name is understood to be "IHSAA.")

### Article II — Purpose

The purpose of this Association shall be to encourage, regulate and give direction to wholesome amateur interschool athletic competition between the schools who are members of the Association. All such interschool athletic competition coming under regulation by this Association shall be subservient to and complementary to the academic or curricular functions of the member schools which are their primary purposes. To assure that the program of interschool athletic competition remains steadfast to the principles of wholesome amateur athletics and subservient to its primary academic or curricular functions of education of the member schools, the Association shall cooperate with agencies vitally concerned with the health and educational welfare of secondary school students; furnish protection against exploitation of member schools or their students; determine qualifications of individual contestants, coaches and officials; and provide written communications to establish standards for eligibility, competition and sportsmanship.

### Article III — Membership

#### Section 1.

All Memberships Are Voluntary. Any secondary school in the state may become a member of this Association by meeting the requirements, by subscribing to these rules and regulations, and by paying the annual dues of one dollar and fifty cents (\$1.50) to the Commissioner on or before September 15 of each year. Memberships expire on September 15 of each year unless the annual dues are paid.

## Section 2.

Full membership in this Association shall be open to all public, private, parochial, *boarding*, and institutional high schools of the state offering and maintaining *two or more* years of high school work, provided they meet the requirements of the association and also subscribe to its rules and regulations. A school to be eligible for membership in the IHSAA must be accredited by the State Department of Public Instruction.

## Section 3.

Junior membership may be extended to any school accredited by the State Department of Public Instruction offering the ninth grade, but not eligible for full or associate membership. Junior membership shall extend the privilege of participating in single athletic games, contests, tourneys and meets with other junior members. Junior membership also shall permit teams from junior members composed of ninth grade students to compete against teams composed of ninth and/or tenth grade students from full and associate members in single games, contests, tourneys and meets without special restrictions as to the number of teams entered, trial runs or geographical location within the state. Schools holding junior memberships are not eligible to enter teams in state tourneys or meets. It must be clearly understood that a junior membership is a membership in the Association that requires the principal to subscribe to all of the rules and regulations of the Association. Junior members may share in the distribution of tickets to the state final championship basketball tourney and other state final championship meets on a limited basis as determined by the Board.

## Section 4.

Associate membership may be extended to any high school accredited by the State Department of Public Instruction and operating as a boarding school, with the understanding that:

- a. Associate membership shall extend the privilege of participating in single athletic games and contests and invitational tourneys and meets, but not in any tourneys or meets conducted for the purpose of determining an official state championship in the Association.
- b. Associate members are bound by all rules and regulations of the Association with the exception that students who change schools without a corresponding change of residence on the part of their parents are eligible as to residence immediately, provided there is no undue influence involved in any way.
- c. Associate members are not privileged to share in the distribution of tickets to championship tourneys and meets or in the distribution of surplus funds to member schools.

## Section 5.

Each member school shall have one vote.

## Section 6.

The Board shall be judge on all memberships.

## Article IV — Administration and Legislation

5	1701 up	1701 up	1851 up	1001 up	901 up

- b. The determination of the class of any high school shall be based on the enrollment, in grades nine through twelve, as certified in the latest September Annual Report required by the Division of Inspection of the State Department of Public Instruction.

### Section 3. Athletic Council

- a. The twenty-five district-class units shall at all times be entitled to representation in the Council.
- b. All elective terms of Council members shall be for five years, beginning on July 1 following election, or for the remainder of an unexpired term in case of a vacancy.
- c. Candidate eligibility shall be limited to (1) any administrator or full time teacher of grade 9 or above from a member school

in good standing or (2) any superintendent who has no more than one member high school under his supervision.

To qualify as a nominee (1) such person shall be from the class of school from which the selection is to be made in that particular year, (2) each name must be submitted on an official nominating petition requested in writing from the Commissioner. This must be signed by five member school principals in his Association district, at least two of whom shall be in his class of school, (3) each must file completed petition with the Commissioner no later than November 15 prior to the election.

The Commissioner shall send printed ballots listing all such names to all principals of member schools in good standing in that district, who constitute the electorate. The person receiving the highest number of votes shall be declared duly elected by the Board, who shall constitute the canvassing board. In case of a tie for the winner, the vote shall be taken again, printed ballots listing only the names of those tied to be sent out by the Commissioner with a return date designated by the Board.

- d. *Whenever Council member/s fail to meet the aforementioned eligibility requirements, such membership automatically ceases. However, members may serve out their term as long as they remain in their original district when: (1) their school changes classes due to consolidation or enrollment fluctuation; (2) member moves to a school of a different class or (3) member becomes a superintendent with more than one member high school under his supervision.*
- e. Vacancies in the Council may be filled by the Council, the appointees to serve until the successors chosen at the next annual election take office. Such persons must be from the same district and class member school as the member originally chosen.
- f. The Council shall choose a Board of five members from the membership of the Council. Their term of office shall be from July 1 to June 30 following their selection. All five classes of member schools shall be represented on the Board except as hereinafter stated for members who change their school class after being elected. Expiration of membership on the Council shall automatically terminate membership on the Board. Temporary vacancies on the Board may be filled by the Board from the membership of the Council, but only until the next meeting of the Council, when the Council shall itself choose the successors.
- g. No member of the Council shall be eligible for a longer term on the Council than the one he is serving until the expiration of his term.
- h. All elections shall take place each year between December 1 and December 10, all votes being mailed to the Commissioner on ballots prepared by him. Such ballots shall be open for inspection by the candidate or the principal of any member school.

- i. There shall be held an Annual Meeting for the explanation and interpretation of rules and regulations, for inspirational addresses by recognized leaders, for committee reports and such other business as may come before the meeting. The Board shall set the date of the Annual Meeting and may call a special meeting of the Council when considered advisable.

- j. Each year at the time of the State Track Meet the Council shall meet to reorganize for the ensuing year. At this meeting there shall be elected: (1) A Council President and Vice President from those Council members having only two remaining years of their term and (2) five members of the Board to succeed the retiring Board members. The new Board members shall choose their own President.

The Council shall also meet at the time of the annual meeting of the Association.

### Section 3.

**C** — The Board may issue a warning, probation or suspension of membership to any member school for any reason it deems necessary in order to enforce its decisions or the Constitution and By-Laws: provided, that in case of a penalty of suspension of membership, the Board shall hold a hearing at which the affected member school or schools may be heard.

A **WARNING** is an official notice that an unexcusable, unethical or unsportsmanlike action has occurred, is a matter of record, and such an occurrence must not be repeated.

**PROBATION** is a more severe type of warning. The school may continue its regular schedule and participate in tournaments only after filing a written report with the Commissioner listing measures to be taken to alleviate the problem.

**SUSPENSION** is termination of (1) membership or (2) participation in certain sports for a specified length of time due to any of, but not limited to, the following reasons:

- k. Failure to adequately protect officials and visiting team.
- l. Violation of practice and playing seasons.
- m. Mutual agreements to violate the rules of this Association.

**Note:** Being on probation or previous warnings are not a prerequisite for suspension. All game and officials' contracts shall be null and void. Following the termination of suspension, the principal must make a written request for reinstatement.

\* \* \* \* \*

**Q.1** This question is often asked: "What will be the penalty for violation of such and such a rule?"

- A.** Penalties in the Association are not assigned in advance, as this democratic organization is built on the idea that the observance of its rules and regulations is more to be desired than the enforcement of them. The Association believes that the essence of proper and willing observance is higher than enforcement and that we should resort to enforcement only when observance fails.

## RULE 17 — PROTESTS

## RULE 19 — TRANSFERS

Also see Rule 12—Enrollment and Attendance.

### Section 1.

C — No student who has transferred from another school shall be certified for interschool athletics until the principal has on file an IHSAA Athletic Transfer—Residence Report signed by the principal of the school from which the student transferred.

### Section 2.

C — Students, whose parents change their places of residence during a *school year*, may complete the *school year* in the school in which they have been enrolled, then enter the school in the new district or territory in which their parents reside with residence eligibility in each school during enrollment therein.

Students who reside with their parents and attend high school in their residence district or territory may remain with eligibility in athletics in this high school even though their parents move to another school district or territory, provided no undue influence is attached to the case in any way. (This rule is primarily to enable seniors to remain in the school in which they enrolled and remain eligible to compete in athletics.)

In every instance when the parents of underclassmen move, or plan to move, the principal must inform the parents of the IHSAA rule and if athletes remain in the school after the end of the school year in which their parents move from the school district or territory, it shall be the duty of the principal to complete *Form E* before such grade 9, 10 or 11 students are certified for athletic eligibility. Such students are not eligible during their next school year until *Athletic Transfer-Residence Report (Form E)* has been filed with the Commissioner. (Form E may be initiated in advance.)

endorse for action by the Board and file with the Commissioner.

- b. The Commissioner shall receive all information and evidence submitted in writing and/or at any hearing by the transferee, the school principals of both the transferring and/or receiving schools, representatives of schools involved, and the IHSAA staff.
- c. After receiving all relevant evidence the Commissioner shall make a recommended finding of facts and decision to the Board. Such recommended finding and decision shall be made and a copy served on the receiving principal, a minimum of 14 days prior to the meeting of the Board at which it may be considered, during which 14 days the receiving principal may submit to the Board written objections to the Commissioner's recommended findings and decision. The receiving principal may waive in writing the 14 day waiting time for consideration of the matter by the Board. Meetings of the Board refer to those regularly scheduled. If a transferee or receiving principal desires to be heard personally, with or without counsel, by the Board, the Board will in its discretion set such hearing at a regular meeting as its schedule will permit. If a special meeting of the Board is sought, the Board will grant such hearing only in its discretion and upon posting by applicant of \$100, payable to IHSAA, to partially defray the expense to the IHSAA of the Board and personnel involved.
- d. The Board shall consider the Commissioner's recommended finding and decision and any written or oral objections thereto and issue a decision on the eligibility of the transferee involved based upon whether or not (1) the student was eligible in the school from which transfer was made, (2) any undue influence was involved in the transfer, (3) the transfer was made for interschool athletic competition reasons (school jumping).

### Section 5.

**C** — Change of residence as used in these rules shall mean a bona fide move about which there is no question. If the case is that of a change of residence of parents, the change shall be definite and complete.

### Section 6.

**C** — Students who have been enrolled in a correctional school may return to their home school with the same residence eligibility as when they left. Credits earned in the state school are considered the same as those earned in any other high school so far as eligibility is concerned.

\* \* \* \*

- A.** By applying Rule 19 above. It is the duty of the principal to check carefully the record of every student who transfers from another school. The principal should also advise the

students who contemplate making a change of schools as to the rules of eligibility regarding transfers.

\* \* \* \*

- Q.2 May practices in one school be counted as such in another school where a student changes schools?
- A. Yes, provided definite proof of the practices are on file from the principal of the school in which the practices were held.
- Q.3 What action should be taken by a member school when unable to obtain endorsed Transfer-Residence Report from out-of-state?
- A. Principal should submit letter to Commissioner and request a waiver.

## RULE 20 — UNDU<sup>E</sup> INFLUENCE

### Section 1.

C — The use of undue influence by any person or persons to secure or to retain a student or to secure or to retain one or both of the parents or guardians of a student as residents, may cause the student to be ineligible for high school athletics for a period subject to the determination of the Board and shall jeopardize the standing of the high school in the Association.

NOTE: This rule is interpreted to include any undue influence that may be exerted by anyone on a student who has not yet entered the ninth grade, to enroll in a school other than their home school or the one they ordinarily would be expected to attend or any school where they and/or their parents previously had filed a choice of subject matter card or other written evidence of preliminary enrollment or registration.

### Section 2.

C — No member school student shall be eligible to participate in any interschool contest under the rules of the Association, if it shall be shown that they or any member of their family are receiving any remuneration, either directly or indirectly, to influence them or their family to reside in a given school district or territory in order to establish eligibility on the team of said schools, and any school permitting such participation shall, upon satisfactory evidence, submitted to the Board, be suspended from membership in the Association for a term of not less than one year.

Note: This rule shall not interfere with the right of high school pupils to work during vacation or during out of school hours in order to earn their way through high school. It shall apply to the use of any funds created by gift, or by subscription with the intent of offering such funds for free use by player or any member of player's family as an inducement to change residence to the district or territory of said school and to maintain residence therein.

\* \* \* \*

- Q.1 Is it the duty of the Association to prove that undue influence has been used?
- A. No, the member school principal has agreed to conduct his athletic activities according to the rules and regulations of the Association. Where there is a question, it is the duty of the high school principal to meet the question. He cannot certify that his students are eligible unless he knows that they are eligible.
- Q.2 Why should a school be penalized because some person outside of school uses undue influence?
- A. Usually a school is not penalized unless it is involved or uses the student in question in athletics. In the second place, the results are the same whether some person in school or some person outside of school uses undue influence: An athlete that has been retained or secured through the use of undue influence and the school that uses such an athlete on teams in interschool athletic competition profits by the use of undue influence.
- Q.3 What constitutes the use of undue influence?
- A. An all-inclusive answer for all time and under all conditions cannot be given, but the use of any of the following inducements may come under the rule:
1. Offer or acceptance of money or other valuable consideration.
  2. Reduction or remission of regular tuition.
  3. Waiving the requirement of legal transfers according to law.

## RULE 51 — BASEBALL

Note: See Rule 9 which applies to all sports.

### Section 1.

The National Alliance Edition of Baseball Rules shall govern except as so modified by the Board.

### Section 2.

Interschool baseball contests shall be limited to the period/s: (1) between the first day of school or September 1 and October 15 and or (2) between the Monday following our State final basketball tournament and the date of our State final baseball tournament or the end of conference play, whichever is later.

### Section 3.

The maximum number of interschool baseball contests for the baseball team prior to our State baseball tournament series shall be thirty. The penalty is suspension. Schoolday games shall be limited to twenty-two school days.

Note: Excluding IHSAA tourney series, the first tourney shall count as one contest and each succeeding tourney game shall be counted as a contest.

### Section 4.

There shall be ten separate days of organized baseball practice under the direct supervision of the high school coaching staff by each player preceding participation in interschool contests. Only one practice may be counted for any one day.

### Section 5.

A pitcher may not pitch in more than ten innings in any three consecutive calendar days. To determine the eligible number of innings for a pitcher on a given day—total the number of innings pitched in during the 2 previous calendar days and subtract from 10. A partial inning pitched must be counted as 1 inning.

### Section 6.

#### Independent Summer Baseball

a. High school students may play on independent baseball teams during the summer when school is not in session without jeopardizing their standing or the standing of their school in the Association provided they do not play under assumed names, provided they do not accept remuneration, directly or indirectly for their playing, and provided their school is not still competing for conference awards.

b. Reasonable meals, lodging and transportation may be accepted by the students if such are accepted in service rather than in money or in some other material form. The Association expects all high school students to so conduct themselves at all times that they, their high school and the Association will be honored.

c. All such playing should be checked carefully and frequently. The requirements should be extended to all students. Managers of independent teams should be warned of the dangers of using high school boys on baseball teams. A professional in one sport is a professional in all sports as far as eligibility in the Association is concerned.

d. High school students, who play on baseball teams other than their high school teams during the baseball season, make themselves ineligible for baseball in high school in that baseball season.

e. High school students, who play on baseball teams other than their high school teams during the baseball season, must have written permission of their high school principal on file in the principal's office prior to the participation. The responsibility of securing and filing this written permission rests with the student, the manager of the non-high school team and finally with the high school principal. See Note at end of next sub-section.

f. The Association considers that a member school is entitled to the high school students in baseball during the baseball season and that participation in baseball elsewhere should not take place except by the written permission of the high school principal in each case. The purpose of the permit is to keep the principal informed about his students.

Note 1: Permission granted by a principal to a boy to play baseball on a team other than his school team during the baseball season, makes the boy ineligible for the school team in baseball. No permit can be issued to violate any of the rules of the Association.

Note 2: It is not considered a violation of present Association rules for a member school, during the summer vacation period, to sponsor a team composed entirely of its own students in such sports as baseball, tennis and golf.

### Section 7.

Member school students shall not be considered as violating their amateur standing if they participate, during the summer vacation, in baseball schools and clinics sponsored by professional major and minor league baseball clubs.

Note—Any employee or school official of a member school who acts as an agent or encourages any negotiations between a high school student and representatives of Organized Baseball prior to the student's graduation, is violating the Agreement between the National Federation and Organized Baseball. Such action on the part of any employee or school official may cause their school to be suspended from the Association for a period to be determined by the Board.

Any evidence that a representative of Organized Baseball is attempting to or has signed a student prior to graduation should be reported to the Association at once. This is a violation of the Agreement between the National Federation and Organized Baseball, and the penalty for such action is under the jurisdiction of Organized Baseball.

### Section 8.

High school students playing on their high school baseball team during the summer while their team is still competing for conference awards make themselves ineligible by participating on any other baseball team during that time.

\* \* \* \*

Q.1 Does a high school student violate the rules of the Association by playing independent baseball during the summer?

A. High School students may play independent baseball during the summer months when school is not in session without jeopardizing their standing in high school, provided they do not accept remuneration, directly or indirectly, provided they do not play under assumed names, and provided their school is not still competing for conference awards. Reasonable meals, lodging and transportation may be accepted by such players if accepted in service and not in any other way. All such playing should be checked by principals. (See Rule 51, Section 6).

Q.2 Is a student who plays on an independent baseball team during season "a" ineligible for high school baseball during season "b"?

A. No.

Q.3 If a student plays on an independent team in softball during the baseball season/s, does he make himself ineligible for baseball in high school?

A. No.

### RULE 52 — BASKETBALL

The Official Rules of the National Basketball Committee of the United States and Canada shall govern.

#### Section 2.

All games other than first-team games shall be played in quarters of six minutes in length.

#### Section 3.

The maximum number of games for the regular schedule of any team in basketball shall be eighteen. (The penalty is suspension.)

a. A player may participate in a maximum of seventy-two quarters of interschool basketball, and one invitational tourney during any one season. No player may participate in more than four quarters in any one session. If a player participates in two invitational tourneys, the quarters played in one tourney, shall be included in the seventy-two quarters permitted during the season.

- b. A record of the quarters played in basketball by individual players shall be kept on file in the principal's office at all times for his information in certifying eligibility of players.

#### Section 4.

"Donkey Basketball," "Skruball," "Skateball" or any similar game in which a basketball and/or basketball goals are used shall be considered a game of basketball. High school students who participate in "Donkey Basketball," "Skruball," "Skateball" or similar games, shall be subject to Association eligibility rules as in regular basketball games.

#### Section 5.

No interschool basketball games shall be played by students or schools prior to November 15 of each year or after the closing date of the sectional tournaments of the State Basketball Championship Series each year, except by such students and such schools as are participants in the tournaments of the State Basketball Championship series; and the close of the basketball season for these students and schools shall be not later in any event than the date of the Final Tourney or not later than the elimination of the school in one of these tournaments if earlier than this final tourney date. The penalty is suspension.

Students playing organized (independent, league, recreation) basketball games, before November 15 or after the closing date of the Sectional Basketball Tourney of the State Basketball Championship series, make themselves ineligible for all interschool basketball until the closing date of the State Basketball Championship Tourney of the following year. A prospective student-athlete who engages in a practice, scrimmage, tryout or otherwise demonstrates his athletic ability either on or off the campus for a college shall be considered in violation of this rule. (See Rule 15, Section 9 for camp participation)

#### Section 6.

All organized or formal basketball practices by players or teams shall be limited to the period beginning October 15 and ending with the date of the State Final Championship Basketball Tourney each school year. (See Rule 15, Section 9 for camp participation)

#### Section 7.

There shall be ten separate days of organized practice in basketball under the direct supervision of the high school coaching staff by each player preceding participation in interschool contests. Only one practice may be counted for any one day.

#### Section 8.

All interschool basketball tournaments, other than the State Championship Tourney series, shall be held prior to February of each year. (Exception—See b below)

- a. No interschool basketball tourney which involves more than four schools, shall be held without the sanction of the

Association, except where all the schools are located in a single county.

- b. Basketball tournaments for ninth grade and tournaments composed entirely of associate member teams shall be completed prior to the week of the sectional basketball tournament each year. Players who compete in the ninth grade tournament played after January 31, will not be eligible to compete in the State Championship Tourney Series.

#### Section 9.

Teams and players may participate in two basketball tournaments in addition to the tournaments of the State Basketball Championship Series under the following provisions:

- The games in one tourney may be in addition to the regular schedule.
- The games of the other tourney shall be included within the eighteen game limitation for the season's schedule.
- Teams or players participating in a tourney which extends into a second week shall not be permitted to enter a second tourney.
- No tourney shall be scheduled to extend over more than two consecutive weekends.

The penalty for violation of this section is suspension.

#### Section 10.

A high school shall not be considered eligible to enter a sectional basketball tourney any year unless the team representing the high school has played eight (8) or more interschool games during that season before the Official Entry List for Tournaments is filed in the Association office.

Note: The following apply to the IHSAA tourney games:

- Semi-state and State Final Tourney games will be played on floors 50 x 84 feet. Sectional and regional tourney games may be played on the floors of the same dimensions where conditions permit.
- The backboards shall be rectangles, six feet horizontally and four feet vertically in all IHSAA tournaments, but fan shaped boards as described in the official rules may be used in single games by mutual consent prior to the game.
- If the backboard is transparent, it shall be marked as follows: A rectangle shall be centered behind the ring and marked by a two-inch white line. The rectangle shall have outside dimensions of twenty-four inches horizontally and eighteen inches vertically. ## PART III — GIRLS' INTERSCHOOL SPORTS RULES

Competitive sports are an important part of the total physical education program and opportunities for instruction and participation should be included in the educational experiences of every girl in the secondary school. Sports are an integral part of the culture in which we live and are valuable social tools which may be used to enrich the lives of girls in our society. Sports opportunities of all levels of skill should be available to girls who wish to take advantage of these experiences.

In the secondary schools, a program of intramural participation should be arranged to augment a sound and comprehensive instructional program in physical education for all girls. Interschool programs should not be organized until after there are broad instructional programs and a sufficient allotment of time, facilities, and personnel for new programs. **The interschool program should not be promoted at the expense of the instructional or intramural programs.**

When properly organized and conducted, interschool athletics should provide numerous opportunities for girls to participate in activities which promote self-confidence, growth and development, leadership qualities, and the establishment of desirable interpersonal relationships. These values are more readily attained when the program is based upon accepted standards and practices. When favorable conditions are present, competitive experiences may be wholesome and beneficial and result in acceptable conduct and attitudes. The adoption of practices best suited for the attainment of desirable outcomes is the responsibility of all associated with competitive events. Administrators, players, teachers, coaches, officials, and spectators must share the responsibility for valid practices in competitive sports for high school girls.

The rules and regulations for girls' interschool athletics of the Association are based upon these principles and policies. Those schools who wish to offer an interschool program in grades nine through twelve must adhere to the Association rules.

## PART IV — JUNIOR HIGH SCHOOL INTERSCHOOL RULES

Grade 9 students and/or grade 9 teams in schools having junior membership may participate on the following bases:

- a. A student must meet all the eligibility rules of the Association in all respects.
- b. Teams may compete against only ninth and/or tenth grade teams from other member schools. This does not affect girls playdays, camps or clinics.
- c. Schools may participate in tourneys and meets in accordance with the membership regulations in Article III, Section 3, of the IHSAA Constitution.
- d. Schools may not use students below the ninth grade on their own ninth grade athletic teams in interschool games.

- e. Member schools may not compete with schools who do not hold junior membership if such schools are eligible for membership.
- f. A ninth grade student who is eligible in a school having junior membership may compete on either his team or the parent high school team, but not on both. A student who is advanced to the high school team in one sport may not return to his school team in that sport.  
(Note: It is strongly recommended that ninth grade students in schools holding junior memberships participate only on their teams.)
- g. A ninth grade student may not participate in a contest with or against a student enrolled in a grade lower than the ninth.
- h. The principal is responsible to the Association for the conduct of athletics in that school.
- i. It is strongly recommended that the spirit and philosophy of the rules and the regulations of the Association be followed by schools in conducting their athletic program for students below the ninth grade.

NOTE: Schools holding junior memberships are subject to all rules and regulations of the Association with modifications given above.

## PART V — NATIONAL FEDERATION OF STATE HIGH SCHOOL ASSOCIATIONS

Indiana was admitted in 1924. The National Federation was organized in 1920 and now consists of 50 member state high school associations. Canadian provinces of Manitoba, New Brunswick, Nova Scotia, Ontario, Prince Edward Island and Saskatchewan are affiliated.

These state associations have united to secure the benefits of co-operative action which eliminates unnecessary duplication of work and which increases efficiency through the pooling and coordinating of efforts of all who are engaged in high school athletic activities.

The legislative body is the National Council made up of one representative from each member state association. Such representative must be an officer or a member of his state board of control. The executive body is the Executive Committee of eight members elected by the National Council from the membership of the Boards of Control, Commissioners and executive secretaries of member state associations from eight territorial sections as outlined in the constitution. Terms are staggered and for three years.

The growth in size and influence of the state high school associations and their National Federation insures some degree of teamwork on the part of 22,000 high schools and this teamwork has enabled them to formulate policies and plans for improving high school athletic conditions and to make these plans function. The National Federation probably represents the largest closely knit or-

ganized body of athletes in the world. The opportunities for contributing to the welfare of the high school athletic program are unlimited.

The Federation was organized primarily to secure proper adherence to the eligibility rules of the various state associations in interstate contests and meets. As the prestige of the national organization grew, a program for the sanctioning of interstate meets was developed. This later led to definite action relative to national and sectional athletic events. At the present time, no national athletic meet or tournament is sanctioned. Meets or tournaments, which involve the schools of more than one state, are sanctioned in accordance with definite limitations in connection with the distance to be traveled, the type of sponsor, the amount of school time involved, and extent to which such events interfere with smaller meets which insure participation by greater numbers of those who need the training. The scope of the National Federation work has broadened so that all high school athletic and many non-athletic groups profit through an exchange of experiences and a pooling of interests.

The activities of the National Federation are based on the belief strong state and national high school athletic organizations are necessary to protect the athletic interests of the high schools, to promote an ever increasing growth of a type of interscholastic athletics which is educational in both objective and method and which can be justified as an integral part of the high school curriculum, and to protect high school students from exploitation for purposes having no educational implications. To accomplish these things, it is necessary for educators to exercise teamwork on a nationwide scale.

## PART VI — HISTORY OF IHSAA

The first attempt to organize the high schools of Indiana in a single Association for the purpose of handling athletic activities was made in a meeting of the Northern Indiana Teachers' Association held at Richmond in April, 1903. At this time there was a conference of high school principals, and the conference ended with a body of suggested rules and regulations, called the Richmond Agreement. Due to the fact that there was no central organization having executive power, the Richmond Agreement did little more than point the way toward something better.

Principal J. B. Percy, of Anderson, issued a call for a meeting of high school principals interested in a State Athletic organization for December 5, 1903. At this meeting a provisional constitution was adopted. At a similar meeting on December 29, 1903, a final constitution was adopted and a Board of Control of three members was chosen to administer the affairs of the IHSAA.

The first Board of Control was made up of Principal George W. Benton, Shortridge High School, Indianapolis; Superintendent Lotus D. Coffman, Salem, and Principal J. T. Giles, Marion. These men thought and planned well, and we are enjoying the fruits of their vision.

There were fifteen (15) high schools belonging to the IHSAA, March 1, 1904. The membership had a gradual growth through the years, and now includes almost all of the high schools in the state. The peak membership of eight hundred twenty (820) was reached in 1942, the year that private, parochial and institutional schools were admitted to the Association.

In the beginning, one member of the Board of Control served as Secretary, but it soon became very evident that this office furnished enough work for a special man. It was also seen that the future of the organization demanded that the office of Secretary be made more permanent than the office of Board Member. Accordingly, at the annual meeting in 1906 the office of Permanent Secretary was established, and Principal J. T. Giles of Marion was chosen by the Principals to be the first Permanent Secretary. Principal Giles resigned on December 26, 1912, and Principal Isaac E. Neff, South Bend, was chosen by the principals to succeed him. Principal Neff resigned March 15, 1913, and the Board of Control appointed Principal Arthur L. Trester from Alexandria to serve as Permanent Secretary until the next annual meeting in December, 1913. At this meeting, Principal Trester was chosen by the principals as Permanent Secretary.

The Board of Control consisted of three members, chosen by the principals in their annual meetings, until the annual meeting of October 27, 1916. At this meeting it was decided to divide the State into five districts for administrative and representative purposes, and that each district should have one representative on the Board of Control, chosen by mail ballot from his own district by the principals of his district.

In September, 1925, by a referendum vote the principals passed a legislative body proposal calling for four members from each of the five (5) IHSAA districts. The five members of the Board of Control, serving ex officio, and the fifteen other members elected by the principals in a mail vote constituted this legislative body. Prior to this plan all legislation was done at the annual meeting or by referendum voting by mail. This Legislative Body of twenty members passed on all proposals submitted by the high school principals. It was the law making body of the Association. The plan was considered a step in advance in state administration and legislation in athletic activities.

On December 13, 1930, the Legislative Body considered and passed without a dissenting vote the provisions for an Athletic Council. The plan in full continued the five IHSAA districts in the state and arranged for five representatives on the Athletic Council from each district by classes determined by enrollments in the high schools, thus making the Athletic Council a body of twenty-five members representing all sizes of high schools and all districts of the state at all times and elected by the high school principals in the membership. A provision was included for the selection of a 5-man Board of Control from the membership of the Athletic Council by the members of the Athletic Council. The Athletic Council took over the duties of the former Legislative Body and is considered the law making body of the Association.

The title "Permanent Secretary," established in 1906, was changed to "Commissioner of High School Athletics" in October, 1929, by the

# IHSAA DISTRICTS

Legislative Body, and the Commissioner was granted the powers and duties belonging to a Commissioner of Athletics. Mr. Trester continued to serve as commissioner until the date of his death, September 18, 1944. The Board of Control designated Superintendent Morris E. McCarty of Lafayette to serve as Acting Commissioner. In December, 1944, Principal L. V. Phillips of Vincennes was chosen Commissioner to take office January 1, 1945. In 1944, the Board of Control was given authority to employ an Assistant Commissioner. Robert S. Hinshaw, Director of Athletics in Rushville High School, was chosen in November 1945 to take office December 10, 1945 to become the first Assistant Commissioner of Athletics for the IHSAA. In July, 1961, Herman F. Keller of Evansville Bosse High School became the second Assistant Commissioner of Athletics after the death of Mr. Hinshaw. On the retirement of L. V. Phillips, July 31, 1962, the Board of Control selected Phil N. Eskew, Superintendent, Huntington Public Schools, as the third Commissioner of Athletics. The Board conferred the title of "Honorary Commissioner" on L. V. Phillips. On August 1, 1969, Ward E. Brown, Principal of Crawfordsville High School, was selected as Assistant Commissioner to work with Mr. Eskew and Mr. Keller, and on January 1, 1972, Miss Patricia Roy of East Gary was selected as Director of Girls' Athletics for the Association. Mr. Keller retired as Assistant Commissioner on August 1, 1973 and was succeeded by Charles F. Maas, Athletic Director from Arlington High School, Indianapolis. On July 1, 1974, Miss Sue Parrish of Yorktown became the first Assistant Director of Girls' Athletics.

The primary purpose of the organizers of the IHSAA, to manage and to foster high school athletics on a high plane, has been upheld as an ideal by the Association through the life of the IHSAA. New and advanced steps have been taken whenever conditions made them necessary. In the beginning, the Association concerned itself largely with track and football. As time went on it became increasingly evident that the IHSAA should assume the initiative for a well balanced athletic program to meet the needs of all schools and all students desiring to participate in athletics. The Association now sanctions 10 different sports for boys and 12 different sports for girls. Seasons culminate with State Championships in all 10 sports for boys and 6 sports for girls.

A study of the persons who have served on the Board of Control through the years will show clearly that the activities of the IHSAA have been in good hands. The titles and addresses are given as they were when the Board of Control members served. A complete list of former Board members follows:

# Football

The first Indiana high school football play-off champions were determined this year in each of three classes with a culmination of 316 schools vieing for representation and honors.

Schools were classified according to male enrollment in grades 10, 11 and 12 and assigned to districts. Through the use of a numerical rating applied to each school's regular season games, one representative was selected in each of four districts for each of the three classifications.

Rating points were awarded as follows:

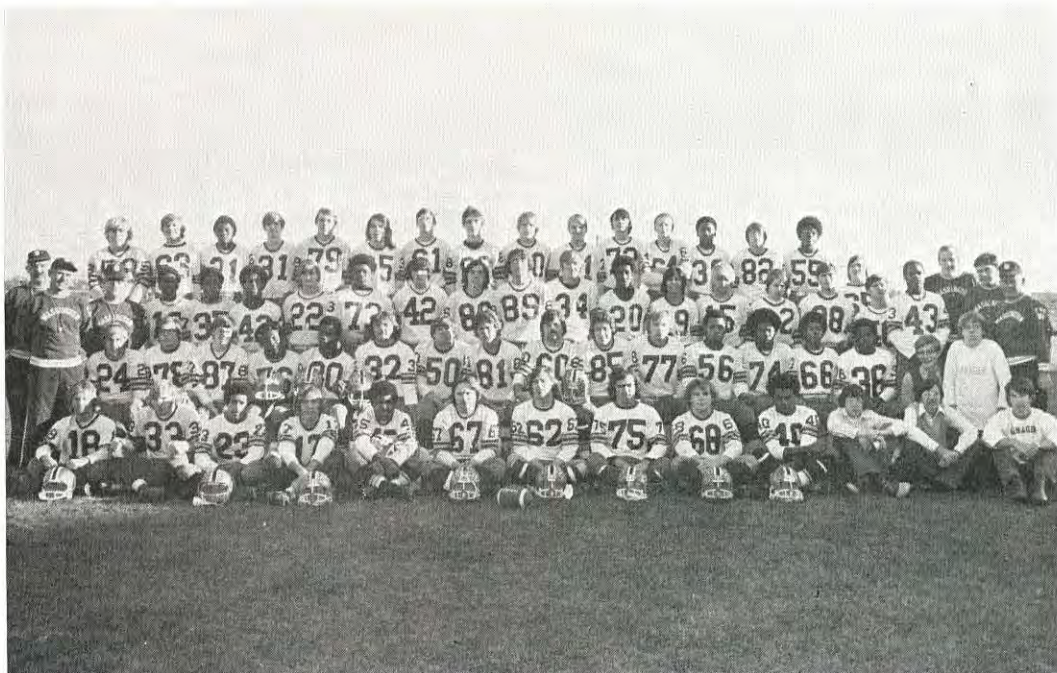

Classification	Defeating A	Defeating AA	Defeating AAA
AAA	1	2	3
AA	2	3	4
A	3	4	5

A new interest was generated among fans throughout the state as 35,000 attended the nine play-off games.

# Girls' Volleyball

A powerful Mishawaka Marian team reigns as the second IHSA State Girls' Volleyball Champions after defeating a strong Ft. Wayne Snider contingent 15-10, 15-4. The spiking of Jeanine Bautens and Connie Harmocinski led Marian to victory in two straight games.

The Knights made the finals by thumping rival South Bend LaSalle in one of the evening semi-final matches 15-1, 15-1. Snider ousted Greencastle in the other semi-final match 15-11 and 15-8.

Muncie Northside and Mishawaka put on the outstanding first round performance in the eight team tourney in the morning's second match. North lost a 15-13 first game, rallied for a heart-stopping 9-7 elapse of time victory that featured the best defense in the tourney. With the second game score tied at 2-2, the two teams used up nearly half of the eight minute period with an exchange that saw them combine for seven side-outs on the long volleys without allowing a point. North faltered in the deciding game to lose a 15-2 decision.

In the first round matches, South Bend LaSalle ousted Jeffersonville, 15-6, 15-10; Fort Wayne Snider edged Bloomington South, 17-15 and 15-3 and Greencastle eliminated Vincennes Rivet 15-3, 15-6.

Congratulations are in order to Marian and Coach Sidney Dunphy for their fine representation during the tourney.

Greencastle senior Brenda Andis was the recipient of the IHSA Mental Attitude Award. Brenda has been a member of the varsity volleyball team for three years, served as team captain and led the team in spikes. Varsity cheerleading, National Honor Society and Vice-President of Future Business Leaders of America, were among Brenda's school activities.

The IHSA commended the seven other finalists for their fine representation and display of good sportsmanship.

A total of 346 high schools and 3,460 girls participated in the state tournament program.

# Basketball

Fort Wayne Northrop, in its third year of existence, won the 64th Annual State Basketball Championship before 17,255 fans in the Indiana University Assembly Hall. Coached by Bob Dille, Northrop displayed an awesome defense as they turned back a determined Jeffersonville team in the low scoring final game 59-56.

In the first afternoon game Jeffersonville defeated Franklin's Grizzly Cubs by a 63-52 count and Fort Wayne Northrop advanced by downing Lafayette's Bronchos 63-49. The contest was intensified by a new record attendance of 17,412 for the afternoon session.

Northrop was led by Walter Jordon and Mike Muff with strong support from the other starters Maurice Drinks, James Wimbley and Tom Madden.

The Board of Control selected Jon and Don McGlocklin of Franklin as co-recipients of the coveted Arthur L. Trester Award for Mental Attitude. This marked the second time in history that the award was presented to twin brothers.

A total of 420 teams participated in the Basketball Tourney Series.

# Girls' Gymnastics

Before a crowd of 2300 spectators Columbus North, coached by Linda Wagonseller, captured the second annual Girls' State Gymnastics Championship at North Central High School edging Indianapolis Howe 80.55 to 76.80. Finalists from forty-six schools competed.

One hundred and eight schools with 1,110 gymnasts began sectional competition at thirteen centers. Regional competition was held at Ben Davis, Blackford, Edgewood and Wawasee with Columbus North, Portage, Indianapolis Howe and Richmond advancing to the State to qualify for the optional team title. The first three gymnasts in each event at the beginning, intermediate and optional level qualified in each regional and advanced to the State.

Pam Robillard of Columbus North led her school to its second consecutive team title as she won a close duel in the all-around event. The outstanding performance of the day was turned in by Miss Robillard who took first place in balance beam, vaulting and uneven bars. In the beginning and intermediate levels, Candy Cannaday of Noblesville and Toni Yudt of Portage were the all-around winners.

The dynamic Miss Robillard was selected by the Board of Control as the Mental Attitude Award recipient. Pam is a senior honor student and was chosen for her outstanding achievements in scholarship, citizenship, attitude, leadership and gymnastics ability.

# Girls' Track and Field

The First IHSA State Championship Meet in track and field for girls was held at North Central High School on May 31, 1974 with 112 schools and 263 girls competing.

Cathy Eastridge's blue ribbon high jump handed Harrison High School of West Lafayette the team title enabling coach Betty Bolyard's squad to edge out Indianapolis Washington and West Lafayette in the final team standings. Harrison wound up with 32 points to capture the team trophy before a North Central crowd of 1,800. West Lafayette and Indianapolis Washington deadlocked for second place with 27 points, closely followed by Southport with 26.

The only double winner was Lynn Reed of South Bend Clay who swept the 100 yard dash in 11.1 and the 440 yard dash in 57.3.

Another eye-catcher was Jane Findling of Valparaiso who won the softball throw with a toss of 232 feet 9 inches. Findling's toss of 251 feet 10 inches at the Lafayette Regional bettered a National Record by 13 feet.

The Board of Control unanimously selected Theresa Kern of Eastside (Butler) as the recipient of the first Mental Attitude Award for athletic excellence, scholarship, citizenship, attitude, leadership and ability in track.

The Indiana High School  
Athletic Association

Indianapolis, Indiana

We have examined the statement of cash receipts and disbursements and the schedule of the meeting expenses of The Indiana High School Athletic Association for the year ended June 30, 1974, and the schedule of securities owned at June 30, 1974. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. We previously made a similar examination for the preceding year.

We reconciled the balance of cash on deposit at June 30, 1974, with the amount reported directly to us by the depository. Our examination included reconciliation of recorded cash receipts for the year with deposits as evidenced by bank statements on file. Canceled checks returned by the bank were compared with the record of cash disbursements and the cash disbursements were supported on a test basis by examination of invoices, expense reports, and other data. Securities owned by the Association at June 30, 1974, were inspected or confirmed by the safekeeping agent.

In our opinion, the accompanying statement of cash receipts and disbursements, and schedules of meeting expenses and securities owned present fairly the recorded cash transactions of The Indiana High School Athletic Association for the year ended June 30, 1974, and the securities owned by the Association at June 30, 1974.
