PRESIDENTS MESSAGE

By

Robert M. Straight

The Indiana High School Athletic Association is a purely voluntary organization, in which the high schools exercise the right of choice of membership. The privilege and opportunity to belong to such an organization places upon the members the obligation of loyalty and courageously supporting the rules and regulations of the organization, both in spirit and in practice.

The I.H.S.A.A. is a democratic organization. Leaders are elected by ballot and all members have an opportunity to vote. Rules and regulations are made in a democratic manner. Our organization is strong, because of the excellent cooperation of the member schools.

We are deeply concerned with the problem of keeping athletics in Indiana clean. We cannot for a moment relax our vigilance. Our young people must learn that in adult life there are rules by which we must govern ourselves if we are to continue our democratic way of living. They learn this lesson by realizing that there are certain bounds in the fields of sports, and that as long as they abide by these rules they can participate one-hundred percent in the program. But when a student infringes on any of these regulations, he forfeits the right to compete with those who obey the rules. We dare not lower our standards on this score. To do so would be to disregard our own responsibilities, to forfeit the confidence of the public, and to fail the youth we serve. Ours must continue to be an impartial survey. We must have the courage to seek solution of our problems which will keep our program one we can honor and point to with pride. A continued good athletic program is up to our Association and its member schools. All organizations must have fundamental rules and principles, so must we; and our membership is our pledge of obedience to such regulations.

With the attitude of "fair play", a desire to do the right thing, and a diligent effort to follow the rules and regulations of the Indiana High School Athletic Association, I feel sure that the year of 1975-76 will be another successful one, for the Association, the members and the athletes.

CONSTITUTION OF INDIANA HIGH SCHOOL ATHLETIC ASSOCIATION

Preamble

The principals of the secondary schools of Indiana recognizing the need for a voluntary association of schools to plan, organize and regulate a wholesome, amateur program of interschool athletic competition in which school members of such association would participate, hereby consent and agree to establish the following as the Constitution of the Indiana High School Athletic Association.

Article 1 — Name

The name of this association shall be the "Indiana High School Athletic Association." (The abbreviation of this name is understood to be IHSAA.)

Article II — Purpose

The purpose of this Association shall be to encourage, regulate and give direction to wholesome amateur interschool athletic competition between the schools who are members of the Association. All such interschool athletic competition coming under regulation by this Association shall be subservient to and complementary to the academic or curricular functions of the member schools which are their primary purposes. To assure that the program of interschool athletic competition remains steadfast to the principles of wholesome amateur athletics and subservient to its primary academic or curricular functions of education of the member schools, the Association shall cooperate with agencies vitally concerned with the health and educational welfare of secondary school students; furnish protection against exploitation of member schools or their students; determine qualifications of individual contestants, coaches and officials; and provide written communications to establish standards for eligibility, competition and sportsmanship.

Article III — Membership

Section 1.

All Memberships Are Voluntary. Any secondary school in the state may become a member of this Association by meeting the requirements, by subscribing to these rules and regulations, and by paying the annual dues of one dollar and fifty cents (\$1.50) to the Commissioner on or before September 15 of each year. Memberships expire on September 15 of each year unless the annual dues are paid.

Section 2.

Full membership in this Association shall be open to all public, private, parochial, boarding, and institutional high schools of the state offering and maintaining two or more years of high school work, provided they meet the requirements of the association and also subscribe to its rules and regulations. Schools holding junior memberships are not eligible to enter teams in state tourneys or meets. It must be clearly understood that a junior membership is a membership in the Association that requires the principal to subscribe to all of the rules and regulations of the Association. Junior members may share in the distribution of tickets to the state final championship basketball tourney and other state final championship meets on a limited basis as determined by the Board.

Section 4.

Associate membership may be extended to any high school accredited by the State Department of Public Instruction and operating as a boarding school, with the understanding that:

- a. Associate membership shall extend the privilege of participating in single athletic games and contests and invitational tourneys and meets, but not in any tourneys or meets conducted for the purpose of determining an official state championship in the Association.

C — No student who has transferred from another school shall be certified for interschool athletics until the principal has on file an IHSA Athletic Transfer—Residence Report signed by the principal of the school from which the student transferred.

Section 2.

C — Students, whose parents change their places of residence during a school year, may complete the school year in the school in which they have been enrolled, then enter the school in the new district or territory in which their parents reside with residence eligibility in each school during enrollment therein.

Students who reside with their parents and attend high school in their residence district or territory may remain with eligibility in athletics in this high school even though their parents move to another school district or territory, provided no undue influence is attached to the case in any way. (This rule is primarily to enable seniors to remain in the school in which they enrolled and remain eligible to compete in athletics.)

In every instance when the parents of underclassmen move, or plan to move, the principal must inform the parents of the IHSA rule and if athletes remain in the school after the end of the school year in which their parents move from the school district or territory, it shall be the duty of the principal to complete Form E before such grade 9, 10 or 11 students are certified for athletic eligibility. Such students are not eligible during their next school year until Athletic Transfer-Residence Report (Form E) has been filed with the Commissioner. (Form E may be initiated in advance.)

Section 3.

C — The principal of the school receiving a transfer student is authorized to certify residence eligibility under the transfer rule provided (1) student has established residence in pertinent district or territory, (2) student was eligible in previous school, (3) there is no evidence of undue influence, (4) there is no evidence that the transfer was made for interschool athletic competition reasons and (5) when bona fide evidence is on file that any of the following criteria has been met:

- a. Parents or guardians make a bona fide corresponding change of residence to the new school district or territory.
- b. Student is a ward of a court.
- c. Student is a ward of a guardian whose residence is in the new school district or territory.
- d. Student is an orphan.
- e. Student is a foreign exchange student under an authorized program.
- f. Student's former school closed.
- g. Transfer is made pursuant to a school board mandate.

- h. Student is enrolling in grade 9 for the first time.
- i. Student enrolled by error in former school for 15 or less school days.
- j. Transfer is for promotion purposes (less than 4 years).
- k. Student has not participated in a high school varsity athletic contest.

Section 4.

C — When student athletes transfer or plan to transfer from one school to another member school and their eligibility cannot be certified under Section 3 above, their eligibility shall be determined by the Board in the following manner:

- a. The principal of the receiving school shall prepare 2 copies of the Athletic Transfer-Residence Report, attach pertinent information, endorse for action by the Board and file with the Commissioner.
- b. The Commissioner shall receive all information and evidence submitted in writing and/or at any hearing by the transferee, the school principals of both the transferring and/or receiving schools, representatives of schools involved, and the IHSAA staff.
- c. After receiving all relevant evidence the Commissioner shall make a recommended finding of facts and decision to the Board.

If Commissioner finds student ineligible, he shall determine sport/s involved and the period of ineligibility not to exceed 365 days. Effective date need not coincide with enrollment date.

Such recommended finding and decision shall be made and a copy served on the receiving principal, a minimum of 14 days prior to the meeting of the Board at which it may be considered, during which 14 days the receiving principal may submit to the Board written objections to the Commissioner's recommended findings and decision. The receiving principal may waive in writing the 14 day waiting time for consideration of the matter by the Board. Meetings of the Board refer to those regularly scheduled. If a transferree or receiving principal desires to be heard personally, with or without counsel, by the Board, the Board will in its discretion set such hearing at a regular meeting as its schedule will permit. If a special meeting of the Board is sought, the Board will grant such hearing only in its discretion and upon posting by applicant of \$100 payable to IHSAA, to partially defray the expense to the IHSAA of the Board and personnel involved.

- d. *When Commissioner's decision is appealed, the Board shall review the facts and determine whether Commissioner's decision was reasonable. The Board may alter the Commissioner's decision, but ineligibility period shall not exceed 365 days.*

Section 5.

C — Change of residence as used in these rules shall mean a bona fide move about which there is no question. If the case is that of a change of residence of parents, the change shall be definite and complete.

Section 6.

C — Students who have been enrolled in a correctional school may return to their home school with the same residence eligibility as when they left. Credits earned in the state school are considered the same as those earned in any other high school so far as eligibility is concerned.

* * * *

- Q.1** If a student transfers from a member school located in one city or school district to a school in another city or school district, how is eligibility determined?
- A.** By applying Rule 19 above. It is the duty of the principal to check carefully the record of every student who transfers from another school. The principal should also advise the students who contemplate making a change of schools as to the rules of eligibility regarding transfers.

* * * *

- Q.2** May practices in one school be counted as such in another school where a student changes schools?
- A.** Yes, provided definite proof of the practices are on FILE from the principal of the school in which the practices were held.
- Q.3** What action should be taken by a member school when unable to obtain endorsed Transfer-Residence Report from out-of-state?
- A.** Principal should submit letter to Commissioner and request a waiver.

RULE 20 — UNDUE INFLUENCE

Section 1.

C — The use of undue influence by any person or persons to secure or to retain a student or to secure or to retain one or both of the parents or guardians of a student as residents, may cause the student to be ineligible for high school athletics for a period subject to the determination of the Board and shall jeopardize the standing of the high school in the Association.

NOTE: This rule is interpreted to include any undue influence that may be exerted by anyone on a student who has not yet entered the ninth grade, to enroll in a school other than their home school or the one they ordinarily would be expected to attend or any school where they and/or their parents previously had filed a choice of subject matter card or other written evidence of preliminary enrollment or registration.

Section 2.

C — No member school student shall be eligible to participate in any interschool contest under the rules of the Association, if it shall be shown that they or any member of their family are receiving any remuneration, either directly or indirectly, to influence them or their family to reside in a given school district or territory in order to establish eligibility on the team of said schools, and any school permitting such participation shall, upon satisfactory

evidence, submitted to the Board, be suspended from membership in the Association for a term of not less than one year.

NOTE: This rule shall not interfere with the right of high school pupils to work during vacation or during out of school hours in order to earn their way through high school. It shall apply to the use of any funds created by a gift, or by subscription with the intent of offering such funds for free use by player or any member of player's family as an inducement to change residence to the district or territory of said school and to maintain residence therein.

* * * *

Q.1 Is it the duty of the Association to prove that undue influence has been used?

A. No, the member school principals have agreed to conduct athletic activities according to the rules and regulations of the Association. Where there is a question, it is the duty of the high school principals to meet the question. They cannot certify that students are eligible unless they know that they are eligible.

Q.2 Why should a school be penalized because some person outside of school uses undue influence?

A. Usually a school is not penalized unless it is involved or uses the student in question in athletics. In the second place, the results are the same whether some person in school or some person outside of school uses undue influence: An athlete that has been retained or secured through the use of undue influence and the school that uses such an athlete on teams in interschool athletic competition profits by the use of undue influence.

Q.3 What constitutes the use of undue influence?

A. An all-inclusive answer for all time and under all conditions cannot be given, but the use of any of the following inducements may come under the rule:

1. Offer or acceptance of money or other valuable consideration.
2. Reduction or remission of regular tuition.
3. Waiving the requirement of legal transfers according to law.
4. Offer or acceptance of board, room or clothing.
5. Offer or acceptance of remuneration for work in excess of amount regularly paid for such service.
6. Free transportation.
7. Transportation by coach, principal, teacher or school official.
8. Offer of acceptance of school privileges or considerations not granted to other students.
9. Residing with or promise of residence with coach, principal, teacher or school official.
10. Free rent or reduced rent for parents.
11. Offer or payment of moving expenses of parents.
12. Any inducement to get parents or students to change residence for athletic reasons.

RULE 51 — BASEBALL

Note: See Rule 9 which applies to all sports.

Section 1.

The National Alliance Edition of Baseball Rules shall govern except as so modified by the Board.

Section 2.

Interschool baseball contests shall be limited to the period/s: (1) between the first day of school or September 1 and October 15 and or (2) between the Monday following our State final basketball tournament and the date of our State final baseball tournament or the end of conference play, whichever is later.

Section 3.

The maximum number of interschool baseball contests for the baseball team prior to our State baseball tournament series shall be thirty. The penalty is suspension. Schoolday games shall be limited to twenty-two school days.

Note: Excluding IHSAA tourney series, the first tourney shall count as one contest and each succeeding tourney game shall be counted as a contest.

Section 4.

There shall be ten separate days of organized baseball practice under the direct supervision of the high school coaching staff by each player preceding participation in interschool contests. Only one practice may be counted for any one day.

Section 5.

A pitcher may not pitch in more than ten innings in any three consecutive calendar days. To determine the eligible number of innings for a pitcher on a given day—total the number of innings pitched in during the 2 previous calendar days and subtract from 10. A partial inning pitched must be counted as 1 inning.

Section 6.

Independent Summer Baseball

a. High school students may play on independent baseball teams during the summer when school is not in session without jeopardizing their standing or the standing of their school in the Association provided they do not play under assumed names, provided they do not accept remuneration, directly or indirectly for their playing, and provided their school is not still competing for conference awards.

b. Reasonable meals, lodging and transportation may be accepted by the students if such are accepted in service rather than in money or in some other material form. The Association expects all high school students to so conduct themselves at all times that they, their high school and the Association will be honored.

c. All such playing should be checked carefully and frequently. The requirements should be extended to all students. Managers of independent teams should be warned of the dangers of using high school boys on baseball teams. A professional in one sport is a professional in all sports as far as eligibility in the Association is concerned.

d. High school students, who play on baseball teams other than their high school teams during the baseball season, make themselves ineligible for baseball in high school in that baseball season.

e. High school students, who play on baseball teams other than their high school teams during the baseball season, must have written permission of their high school principal on file in the principal's office prior to the participation. The responsibility of securing and filing this written permission rests with the student, the manager of the non-high school team and finally with the high school principal. See Note at end of next sub-section.

f. The Association considers that a member school is entitled to the high school students in baseball during the baseball season and that participation in baseball elsewhere should not take place except by the written permission of the high school principal in each case. The purpose of the permit is to keep the principal informed about his students.

Note 1: Permission granted by a principal to a boy to play baseball on a team other than his school team during the baseball season makes the boy ineligible for the school team in baseball. No permit can be issued to violate any of the rules of the Association.

Note 2: It is not considered a violation of present Association rules for a member school, during the summer vacation period, to sponsor a team composed entirely of its own students in such sports as baseball, tennis and golf.

Section 7.

Member school students shall not be considered as violating their amateur standing if they participate, during the summer vacation, in baseball schools and clinics sponsored by professional major and minor league baseball clubs.

Note—Any employee or school official of a member school who acts as an agent or encourages any negotiations between a high school student and representatives of Organized Baseball prior to the student's graduation, is violating the Agreement between the National Federation and Organized Baseball. Such action on the part of any employee or school official may cause their school to be suspended from the Association for a period to be determined by the Board.

Any evidence that a representative of Organized Baseball is attempting to or has signed a student prior to graduation should be reported to the Association at once. This is a violation of the Agreement between the National Federation and Organized Baseball, and the penalty for such action is under the jurisdiction of Organized Baseball.

Section 8.

High school students playing on their high school baseball team during the summer while their team is still competing for conference awards make themselves ineligible by participating on any other baseball team during that time.

* * * *

Q.1 Does a high school student violate the rules of the Association by playing independent baseball during the summer?

A. High school students may play independent baseball during the summer months when school is not in session without jeopardizing their standing in high school, provided they do not accept remuneration, directly or indirectly, provided they do not play under assumed names, and provided their school is not still competing for conference awards. Reasonable meals, lodging and transportation may be accepted by such players if accepted in service and not in any other way. All such playing should be checked by principals. (See Rule 51, Section 6).

Q.2 Is a student who plays on an independent baseball team during season "a" ineligible for high school baseball during season "b"?

A. No.

Q.3 If a student plays on an independent team in softball during the baseball season/s, does he make himself ineligible for baseball in high school?

Section 3.

The maximum number of games for the regular schedule of any team in basketball shall be eighteen. (The penalty is suspension.)

a. A player may participate in a maximum of seventy-two quarters of interschool basketball, and one invitational tourney during any one season. No player may participate in more than four quarters in any one session. If a player participates in two invitational tourneys, the quarters played in one tourney, shall be included in the seventy-two quarters permitted during the season.

- b. A record of the quarters played in basketball by individual players shall be kept on file in the principal's office at all times for his information in certifying eligibility of players.

Section 4.

"Donkey Basketball," "Skruball," "Skateball" or any similar game in which a basketball and/or basketball goals are used shall be considered a game of basketball. High school students who participate in "Donkey Basketball," "Skruball," "Skateball" or similar games, shall be subject to Association eligibility rules as in regular basketball games.

Section 5.

No interschool basketball games shall be played by students or schools prior to November 15 of each year or after the closing date of the sectional tourneys of the state Basketball Championship Series each year, except by such students and such schools as are participants in the tourneys of the State Basketball Championship series; and the close of the basketball season for these students and schools shall be not later in any event than the date of the Final Tourney or not later than the elimination of the school in one of these tourneys if earlier than this final tourney date. The penalty is suspension

Students playing organized (independent, league, recreation) basketball games, before November 15 or after the closing date of the Sectional Basketball Tourney of the State Basketball Championship series, make themselves ineligible for all interschool basketball until the closing date of the State Basketball Championship Tournament of the following year. A prospective student-athlete who engages in a practice, scrimmage, tryout or otherwise demonstrates his athletic ability either on or off the campus for a college shall be considered in violation of this rule. (See Rule 15, Section 9 for camp participation)

Section 7.

There shall be ten separate days of organized practice in basketball under the direct supervision of the high school coaching staff by each player preceding participation in interschool contests. Only one practice may be counted for any one day.

Section 8.

All interschool basketball tourneys, other than the State Championship Tourney series, shall be held prior to February of each year. (Exception—See b below)

- a. No interschool basketball tourney which involves more than four schools, shall be held without the sanction of the Association, except where all the schools are located in a single county.

- b. Basketball tournaments for ninth grade and tournaments composed entirely of associate member teams shall be completed prior to the week of the sectional basketball tournament each year. Players who compete in the ninth grade tournament played after January 31, will not be eligible to compete in the State Championship Tourney Series.

Section 9.

Teams and players may participate in two basketball tourneys in addition to the tourneys of the State Basketball Championship Series only under the following provisions:

- a. The games in one tourney may be in addition to the regular schedule.
- b. The games of the other tourney shall be included within the eighteen game limitation for the season's schedule.
- c. Teams or players participating in a tourney which extends into a second week shall not be permitted to enter a second tourney.
- d. No tourney shall be scheduled to extend over more than two consecutive weekends.

The penalty for violation of this section is suspension.

Section 10.

A high school shall not be considered eligible to enter a sectional basketball tourney any year unless the team representing the high school has played eight (8) or more interschool games during that season before the Official Entry List for Tourneys is filed in the Association office.

Note: The following apply to the IHSAA tourney games:

- a. Semi-state and State Final Tourney games will be played on floors 50 x 84 feet. Sectional and regional tourney games may be played on the floors of the same dimensions where conditions permit.
- b. The backboards shall be rectangles, six feet horizontally and four feet vertically in all IHSAA tourneys, but fan shaped boards as described in the official rules may be used in single games by mutual consent prior to the game.
- c. If the backboard is transparent, it shall be marked as follows: A rectangle shall be centered behind the ring and marked by a two-inch white line. The rectangle shall have outside dimensions of twenty-four inches horizontally and eighteen inches vertically. For the rectangular backboard, the top edge of the baseline shall be level with the ring. Borders of the backboard should be marked with a white line three inches in width.
- d. The regulation type of baskets, as described in the official rules, shall be used in all IHSAA tourneys, but other types of baskets may be used in single games by mutual consent prior to the game. Each basket ring and the attaching flange and braces shall be bright orange in color.

PART III — GIRLS' INTERSCHOOL SPORTS RULES

Competitive sports are an important part of the total physical education program and opportunities for instruction and participation should be included in the educational experiences of every girl in the secondary school. Sports are an integral part of the culture in which we live and are valuable social tools which may be used to enrich the lives of girls in our society. Sports opportunities of all levels of skill should be available to girls who wish to take advantage of these experiences.

In the secondary schools, a program of intramural participation should be arranged to augment a sound and comprehensive instruc-

tional program in physical education for all girls. Interschool programs should not be organized until after there are broad instructional programs and a sufficient allotment of time, facilities, and personnel for new programs. The interschool program should not be promoted at the expense of the instructional or intramural programs.

When properly organized and conducted, interschool athletics should provide numerous opportunities for girls to participate in activities which promote self-confidence, growth and development, leadership qualities, and the establishment of desirable interpersonal relationships. These values are more readily attained when the program is based upon accepted standards and practices. When favorable conditions are present, competitive experiences may be wholesome and beneficial and result in acceptable conduct and attitudes. The adoption of practices best suited for the attainment of desirable outcomes is the responsibility of all associated with competitive events. Administrators, players, teachers, coaches, officials, and spectators must share the responsibility for valid practices in competitive sports for high school girls.

The rules and regulations for girls' interschool athletics of the Association are based upon these principles and policies. Those schools who wish to offer an interschool program in grades nine through twelve must adhere to the Association rules.

NOTE: Schools holding junior memberships are subject to all rules and regulations of the Association with modifications given above.

PART V — NATIONAL FEDERATION OF STATE HIGH SCHOOL ASSOCIATIONS

Indiana was admitted in 1924. The National Federation was organized in 1920 and now consists of 50 member state high school associations. Canadian Federation and 9 Canadian provinces are presently affiliated.

These associations have united to secure the benefits of cooperative action which eliminates unnecessary duplication of work and which increases efficiency through the pooling and coordinating of efforts of all who are engaged in high school athletic activities.

The legislative body is the **National Council** made up of one representative from each member state association. Such representative must be an officer or a member of his/her state board of control. The executive body is the **Executive Committee** of eight members elected by the National Council from the membership of the Boards of Control, Commissioners and executive secretaries of member state associations from eight territorial sections as outlined in the constitution. Terms are staggered and for three years.

The growth in size and influence of the state high school associations and their National Federation insures some degree of teamwork on the part of 22,000 high schools and this teamwork has enabled them to formulate policies and plans for improving high school athletic conditions and to make these plans function. The National Federation probably represents the largest closely knit organized body of athletes in the world. The opportunities for contributing to the welfare of the high school athletic program are unlimited.

The Federation was organized primarily to secure proper adherence to the eligibility rules of the various state associations in interstate contests and meets. As the prestige of the national organization grew, a program for the sanctioning of interstate meets was developed. This later led to definite action relative to national and sectional athletic events. At the present time, no national athletic meet or tournament is sanctioned. Meets or tournaments, which involve the schools of more than one state, are sanctioned in accordance with definite limitations in connection with the distance to be traveled, the type of sponsor, the amount of school time involved, and extent to which such events interfere with smaller meets which insure participation by greater numbers of those who need the training. The scope of the National Federation work has broadened so

that all high school athletic and many non-athletic groups profit through an exchange of experiences and a pooling of interests.

The activities of the National Federation are based on the belief strong state and national high school athletic organizations are necessary to protect the athletic interests of the high schools, to promote an ever increasing growth of a type of interscholastic athletics which is educational in both objective and method and which can be justified as an integral part of the high school curriculum, and to protect high school students from exploitation for purposes having no educational implications. To accomplish these things, it is necessary for educators to exercise team work on a nationwide scale.

PART VI — HISTORY OF IHSAA

The first attempt to organize the high schools of Indiana in a single Association for the purpose of handling athletic activities was made in a meeting of the Northern Indiana Teachers' Association held at Richmond in April, 1903. At this time there was a conference of high school principals, and the conference ended with a body of suggested rules and regulations, called the Richmond Agreement. Due to the fact that there was no central organization having executive power, the Richmond Agreement did little more than point the way toward something better.

Principal J. B. Percy, of Anderson, issued a call for a meeting of high school principals interested in a State Athletic organization for December 5, 1903. At this meeting a provisional constitution was adopted. At a similar meeting on December 29, 1903, a final constitution was adopted and a Board of Control of three members was chosen to administer the affairs of the IHSAA.

The first Board of Control was made up of Principal George W. Benton, Shortridge High School, Indianapolis; Superintendent Lotus D. Coffman, Salem, and Principal J. T. Giles, Marion. These men thought and planned well, and we are enjoying the fruits of their vision.

There were fifteen (15) high schools belonging to the IHSAA, March 1, 1904. The membership had a gradual growth through the years, and now includes almost all of the high schools in the state. The peak membership of eight hundred twenty (820) was reached in 1942, the year that private, parochial and institutional schools were admitted to the Association.

In the beginning, one member of the Board of Control served as Secretary, but it soon became very evident that this office furnished enough work for a special man. It was also seen that the future of the organization demanded that the office of Secretary be made more permanent than the office of Board Member. Accordingly, at the annual meeting in 1906 the office of Permanent Secretary was established, and Principal J. T. Giles of Marion was chosen by the Principals to be the first Permanent Secretary. Principal Giles resigned on December 26, 1912, and Principal Isaac E. Neff, South Bend, was chosen by the principals to succeed him. Principal Neff resigned March 15, 1913, and the Board of Control appointed

Principal Arthur L. Trester from Alexandria to serve as Permanent Secretary until the next annual meeting in December, 1913. At this meeting, Principal Trester was chosen by the principals as Permanent Secretary.

The Board of Control consisted of three members, chosen by the principals in their annual meetings, until the annual meeting of October 27, 1916. At this meeting it was decided to divide the State into five districts for administrative and representative purposes, and that each district should have one representative on the Board of Control, chosen by mail ballot from his own district by the principals of his district.

In September, 1925, by a referendum vote the principals passed a legislative body proposal calling for four members from each of the five (5) IHSA districts. The five members of the Board of Control, serving ex officio, and the fifteen other members elected by the principals in a mail vote constituted this legislative body. Prior to this plan all legislation was done at the annual meeting or by referendum voting by mail. This Legislative Body of twenty members passed on all proposals submitted by the high school principals. It was the law making body of the Association. The plan was considered a step in advance in state administration and legislation in athletic activities.

On December 13, 1930, the Legislative Body considered and passed without a dissenting vote the provisions for an Athletic Council. The plan in full continued the five IHSA districts in the state and arranged for five representatives on the Athletic Council from each district by classes determined by enrollments in the high schools thus making the Athletic Council a body of twenty-five members representing all sizes of high schools and all districts of the state at all times and elected by the high school principals in the membership. A provision was included for the selection of a 5-man Board of Control from the membership of the Athletic Council by the members of the Athletic Council. The Athletic Council took over the duties of the former Legislative Body and is considered the law making body of the Association.

The title "Permanent Secretary," established in 1906, was changed to "Commissioner of High School Athletics" in October, 1929, by the Legislative Body, and the Commissioner was granted the powers and duties belonging to a Commissioner of Athletics. Mr. Trester continued to serve as commissioner until the date of his death, September 18, 1944. The Board of Control designated Superintendent Morris E. McCarty of Lafayette to serve as Acting Commissioner. In December, 1944, Principal L. V. Phillips of Vincennes was chosen Commissioner to take office January 1, 1945. In 1944, the Board of Control was given authority to employ an Assistant Commissioner. Robert S. Hinshaw, Director of Athletics in Rushville High School, was chosen in November 1945 to take office December 10, 1945 to become the first Assistant Commissioner of Athletics for the IHSA. In July, 1961, Herman F. Keller of Evansville Bosse High School became the second Assistant Commissioner of Athletics after the death of Mr. Hinshaw. On the retirement of L. V. Phillips, July 31, 1962, the Board of Control selected Phil N. Eskew, Superintendent, Huntington Public Schools, as the third Commissioner of Athletics. The Board conferred the title of "Honorary Commissioner"

on L. V. Phillips. On August 1, 1969, Ward E. Brown, Principal of Crawfordsville High School, was selected as Assistant Commissioner to work with Mr. Eskew and Mr. Keller, and on January 1, 1972, Miss Patricia Roy of East Gary was selected as Director of Girls' Athletics for the Association. Mr. Keller retired as Assistant Commissioner on August 1, 1973 and was succeeded by Charles F. Maas, Athletic Director from Arlington High School, Indianapolis. On July 1, 1974, Miss Sue Parrish of Yorktown became the first Assistant Director of Girls' Athletics.

The primary purpose of the organizers of the IHSAA, to manage and to foster high school athletics on a high plane, has been upheld as an ideal by the Association through the life of the IHSAA. New and advanced steps have been taken whenever conditions made them necessary. In the beginning, the Association concerned itself largely with track and football. As time went on it became increasingly evident that the IHSAA should assume the initiative for a well balanced athletic program to meet the needs of all schools and all students desiring to participate in athletics. The Association now sanctions 10 different sports for boys and 9 different sports for girls. Seasons culminate with State Championships in all 10 sports for boys and 7 sports for girl.

A study of the persons who have served on the Board of Control through the years will show clearly that the activities of the IHSAA have been in good hands. The titles and addresses are given as they were when the Board of Control members served. A complete list of former Board members follows:

Board of Control Minutes

IHSAA BOARD OF CONTROL MEETING

Louisville, Kentucky, July 4, 1974

PRESENT: President Don Sakel, Ray C. Amrhein, Robert E. Day, Kenneth D. Miller, Max L. Mitchell, Commissioner Phil N. Eskew and Assistant Commissioners Ward E. Brown and Charles F. Maas.

TENNIS TOURNAMENT SERIES

Approval was given to site and assignment of schools, as well as other details of the tournament series.

CROSS COUNTRY MEETS

Approval was given for the sites and assignment of schools for the Cross Country Meets.

MILEAGE ALLOWANCE

Mileage allowance for officials and observers of officials was increased to 12¢ per mile.

SOUTH BEND WASHINGTON

Principal Kermit Thompson of South Bend Washington High School asked the Board to consider additional allowances for teams in the state baseball final tournament due to the rain-out and re-scheduling of games.

DECISION

Because the Board did not want to establish a precedent and because many games in the tournament series were rained-out, it would be impossible to make additional allowances for them since the total program is a deficit.

The Board of Control adjourned to meet again in the IHSAA Office, on August 7, 1974.

IHSAA BOARD OF CONTROL MEETING

Indianapolis, Indiana, August 7, 1974

Golf—Girls

Led by Kyle O'Brien, North Central High School (Indpls.) captured the second annual girls' golf championship at Ulen Country Club, Lebanon with a 9-hole team total of 200.

For the second time in two years bone-chilling rains drenched the fairways, cutting the scheduled 18-hole event in half and leaving 76 golfers shivering and soaked.

O'Brien's 43 seemed headed for medalist honors until late in the day when Kirby Noe from Floyd Central also turned in a 43. Noe and O'Brien then proceeded into a two-hole sudden death play-off. Both golfers bogeyed the first extra hole but Noe captured the second hole when O'Brien overshot the green. Noe's bogey on the second hole was good enough to win the medalist award.

Coached by Ann Wilhoite, the North Central team consisted of two freshmen, Julie Hudson—51, and Julie Selig—52. Junior Stacey Smith shot a 54 to go with O'Brien's 43. North Central's victory margin was just three shots under Anderson's 203 while Yorktown, one of the pre-tourney favorites, nailed down third with 208.

Therese Hession, the Ladywood-St. Agnes standout whose 45 was second best for the day was awarded the Mental Attitude Award by unanimous vote of the Board of Control.

Seventy-three schools and 337 golfers began competition at seven sectional sites during the week of October 7-11. Twenty schools and 76 golfers were represented at the state meet.

Volleyball

Muncie Northside shook off a 14-11 time elapsed first game loss and came back with a 15-5, 15-10 two-game sweep over South Bend Riley to reign as the third IHSAA Girls' Volleyball Champions. The super setting and spiking of Sandy Schneider plus a superb team effort from her teammates lifted the Titans to the championship. Northside, coached by Debbie Millbern, concluded the season with a perfect 22-0 record.

The Titans advanced to the finals by playing their best volleyball of the tourney ousting a strong Fort Wayne Wayne contingent in the opening round of the afternoon 15-0, 15-5. The Titans dumped Lafayette Harrison 15-7, 15-9, in the semi-finals to earn a birth in the championship tussle.

Power-hitting South Bend Riley outplayed Hammond Gavit 15-13, 15-7 in first round play and fought off a tough and spirited Castle team 16-14, 15-10 in the semi-finals to qualify for the championship match.

In other first-round play Castle rallied to defeat Bloomington South 5-15, 15-3, 15-9 and Lafayette Harrison slammed host Ben Davis, the 1972 runner-up, 15-8, 15-2.

Susan McCann, South Bend Riley senior was the recipient of the Mental Attitude Award.

A total of 381 high schools and 4,572 girls participated in the state tournament series program.

Gymnastics—Girls

Portage High School, coached by Beverly Reynolds, captured the Third Annual Girls' State Gymnastics Championship at North Central High School edging Indianapolis Howe 83.5 to 81.4. One hundred and sixteen finalists from 43 schools competed.

One hundred and twenty-three schools with 1,205 gymnasts began sectional competition at twelve centers. The first three gymnasts in each event at the beginning, intermediate and optional level qualified in each regional and advanced to the state.

Kathy Rice, a freshman from Jintown High School, won the optional all-around title by sweeping first places in floor exercise, balance beam and uneven bars. In the beginning and intermediate levels, Marcella VanStone and Kim Knapp of Evansville Harrison were the all-around winners.

Julia Hudson of Evansville Harrison was selected by the Board of Control as the Mental Attitude Award recipient.

Track and Field—Girls

The Second IHSAA State Championship Meet in track and field for girls was held at North Central High School on May 30, 1975 with 128 schools and 276 girls competing.

Although a downpour halted the meet for more than an hour midway through the thirteen events, eight records were broken or tied. Indianapolis Washington and Jeffersonville tied for the team championship with 36 points.

Debbie Quarles of Indianapolis Washington took first in the 80 yard hurdles and second in the 100 yard dash in pacing the Continentals to a share of the championship. Donna Pope's winning long jump and Gertrude Springfield's fifth place heave in the shot put rounded out the Washington effort.

Jeffersonville had three first place finishes in the 880 yard relay, the 880 yard medley relay and the 440 yard dash. Pam Sedwick's record-breaking performance in the 440 yard dash clinched the co-championship for the Red Devils.

A crowd of 1500 damp but enthusiastic fans watched the meet go to the final event before the competition ended in the tie.

The Board unanimously selected Debbie Quarles of Indianapolis Washington as the recipient of the Mental Attitude Award in Girls' Track & Field.

Track and Field—Boys

Gary West emerged as champion of the 72nd Annual State Track and Field Meet held at North Central High School by piling up 47 points. With an excellent field of participants, performances were hampered by a steady, day-long rain. In spite of weather conditions Rudy Chapa, brilliant Hammond High 2-miler, set a new record of 8:58.5. The pole vault was postponed until Monday when Brian Kimball of Ft. Wayne Northrop soared to a new state record height of 16'1".

The Robert S. Hinshaw Award was presented to John Powell of Fort Wayne Northrop High School.
